## WHEELER & WARD, ROOM 4, FARGUSSON BUILDING DULUTH, MINNESOTA.

## LAST EDITION.

### TOMORROW'LL SETTLE IT

An Important Session of the World's Fair Committee.

Tomorrow Will Also Settle the Life Span of Kemmler.

CHICAGO, Aug. 5.—President Palmer of the National Columbian commission, will be in Chicago in time for the opening of the fair tomorrow. He will be in the city for the purpose of attending the session of the committee on the commission and the directors, to begin Wednesday.

In addition to President Palmer, the national commission will be represented by Secretary Dickinson, the collector of the fair, and other members of the committee on permanent organization, and probably by others: Commissioner McKenzie of Kentucky, Chairman Ewing of Chicago, Breckinridge of New York and Chicago, Harrison of Duluth, Matilda of Indiana and Kerens of Missouri; Directors Lyman J. Gage, Edward L. Jeffrey, Wm. F. Baker, Marshall M. Kirkman, and Charles L. Hutchinson will represent the Illinois corporation.

"Our chief topic," said a director yesterday, "for discussion and action will be the selection of a director-general, who will probably be the personal appointment of the President, who will appoint the executive committee, and in the person of his coming creator, co-operating with members of the permanent organization committee will be held on tomorrow and Thursday. The prescribed conference with the World's Columbian exposition at Chicago and the person agreed on at the conference for director-general will be duly enrolled and hard work in this city within one month from date. As to who is the coming man I can say that mention is made of Mr. Gove, Mr. Allison, Mr. McCormick and others."

Springfield, Ill.—The governor today signed the bill which will settle the life span of Kemmler.

TOMORROW'S EVENT.

The First Electrical Exposition to be Had on Wednesday.

ALBANY, N. Y., Aug. 5.—The best judgment possible to be formed with the information at hand is that Kemmler will be executed tomorrow morning.

"I don't propose," said Warden Dutton at noon today, "to state when this man is to be taken off, but this thing is going to be all right." The plain intention was that the killing is to be done at the end of the afternoon, if not before, and that it leaves open to question whether or not it may not take place during the evening. This, however, is improbable. Several of the witnesses have arrived this morning, but not more than a quarter of them, and it is not likely that the warden would hurry his witnesses, traveling and unattended, into a room where they should witness the death of a human being before having got the cinders out of their eyes.

No tidings of Kemmler's condition has come out of the prison today, and inquiry about it has almost ceased to be made.

WHEW!

Looks as if John Bull is After the Earth.

New York, Aug. 5.—The Times says: The Hon. Joseph Price of London, vice-president of the New York, Ontario & Western railway, has just arrived in this country on a tour of inspection. Mr. Price is chairman in London of the English association of American Bond & Shareholders, and represents a syndicate controlling many millions of capital for investment in American railways. He is rumored here that his present visit is for the purpose of securing the construction or acquiring possession of certain lines of railway having an important bearing upon the transportation interests of this city.

No Demand for New Securities.

CHICAGO, Aug. 5.—It has been known for several days that the attempt to get local subscriptions for the securities of the new Chicago stock exchange has failed, but just how much has been kept secret. There were offered \$500,000 of the common stock. The total subscription was \$750,000, or 12 per cent. The subscription to the \$5,000,000 preferred stock was \$750,000, or 15 per cent. A large block of the bonds was taken by stockholders of the old company in the nature of the change from old to new. That made the bond subscriptions larger. Ten millions in bonds was offered and \$1,800,000 was subscribed. From these figures it will be seen that the underwriters must take 88 per cent of the common stock, equal to \$1,720,000; 85 per cent of the preferred stock, equal to \$3,250,000, and 92 per cent of the bonds, equal to \$3,200,000.

Discredit the Report.

BALTIMORE, Md., Aug. 5.—Recent dispatches from Rio Janeiro are giving currency to a report of the fortification of that city of a large system for the purpose of controlling the Brazilian coffee market. Mr. Joshua Levering, a prominent coffee merchant of this city is inclined to discredit the report. He says the competition between the coffee commission men in Rio is very brisk, and the cutting of prices is too sharp to give much probability to the story of a combination there.

The Lading Bill.

CHICAGO, Aug. 5.—There is no change of attitude towards the new form of lading, either on the part of shippers or of carriers. The Lake Shore road, which was believed to be contemplating a step similar to that of the Chicago and Grand Trunk and the Walcott roads, gives out positively that it is using the new bill of lading. At the same time the road using the new form are losing business.

A Lost Ship.

New York, Aug. 5.—The British ship Lord Raglan is posted on the maritime exchange as missing. The Lord Raglan is a large full rigged ship, and left San Francisco February 25 last, for Cork. It was last seen on the 25th of March, and her owners have given her up as lost.

Grand Avenue.

I have several choice lots on this avenue in West Duluth and Hazelwood. I can offer you a bargain. S. M. CHANDLER, 404 Palladio building.

### THE SAINT CECILIA.

Widely Known Musical Society Meets in New York.

New York, Aug. 5.—The annual convention of the Saint Cecilia society, which is composed of priests, bishops, and musicians of the Roman Catholic church, was called to order this morning in the church of St. John the Baptist. After the formal opening a request was made for the presence of the society. A large number of notable singers participated in the musical portions of the mass, which was under the direction of Professor John Singenberger of St. Francis, Wisconsin, made a knight of the Pope in recognition of his services in behalf of the music of the Roman Catholic church.

The headquarters of the society are in Rome, and Cardinal Rampolla is its protector. It has branches in Italy, Germany, Austria, France and Ireland. The United States society has about five thousand members who have bound themselves together for the reformation of religious music, and the society has with the view of having church melody brought back to what it was originally.

In the present gathering the Rev. J. B. Jung of Duluth, Ohio, is vice-president, the Rev. Charles Becker, of St. Francis, Wisconsin, is corresponding secretary, the Rev. Dr. Messner of the Catholic University of Washington, recording secretary, and J. B. Seitz of New York, treasurer.

PATRIARCHS MILITANT.

Today's session in Chicago; Some Very Interesting Reports.

CHICAGO, Aug. 5.—The report of the Patriarchs Militant and of the Old Fellows and Rebekah orders continues.

At 9 o'clock this morning the exemplification of degrees was read, and the initiation of degrees was held in the Second Regiment armory with the Garden City lodge. Competing units of the order of the Fair and battalions were commenced in the afternoon. The evening sessions of the order of the Fair and battalions were commenced in the afternoon. The evening sessions of the order of the Fair and battalions were commenced in the afternoon.

SILVERWARE MARKED UP.

The Silver Bill is the Cause; There May Be a Fair Result.

New York, Aug. 5.—The wholesale silversmiths in this city have advanced the price of spoons, forks, and solid silverware fifteen cents on the dollar in the last few days. The advance has been made in the retail trade in silverware all over the country. The price of silverware has been advanced in proportion.

Original Original Packages.

INDIANAPOLIS, Ind., Aug. 5.—The "original package" decision of the Supreme court has been received here. The decision is in favor of the original package, and the decision is in favor of the original package.

Associated Press Meeting.

DETROIT, Aug. 5.—The annual meeting of the Western Associated Press, which was held here this morning at 11 o'clock with a full attendance. The reports submitted showed that it was in a satisfactory and flourishing condition. It had originally been intended to hold the meeting at Mackinac, but owing to the great overcrowding of hotels at that place it was found necessary to change it to this city.

Destructive Storms.

MASSO CITY, Iowa, Aug. 5.—A destructive wind and hail storm, much worse than at first reported, swept over Lyons, Osceola, Dickinson, Emmet and Winnebago counties Sunday, destroying nearly everything in its path. Many horses and cattle were killed, and men who were out were badly cut by the hail. The track of the storm was about fourteen miles wide, following eastward the south Minnesota state line. Hailstones as large as hen's eggs fell to a depth of six inches. Flax, which was a heavy crop, was entirely ruined. Wheat and oats in the state were badly damaged as not to be worth threshing. Several houses were blown down, and it would take thousands of dollars to cover the damage to farmers alone.

Coldwater, Mich.—A terrible wind and hail storm swept over and visited this vicinity yesterday. Just east of the city fruit, shade and ornamental trees were blown down, and a large number of houses were leveled and the heavy rain will be of incalculable value to growing crops, which were suffering from a four weeks' drought.

Grand Avenue.

I have several choice lots on this avenue in West Duluth and Hazelwood. I can offer you a bargain. S. M. CHANDLER, 404 Palladio building.

### NEWS OF WASHINGTON.

Discussing Tariff as Usual; House Election Committee.

Philadelphia's Population; At the National Park; Notes.

WASHINGTON, Aug. 5.—The senate proceeded to the consideration of the tariff bill, the pending item being cylinder and crown glass polished. Mr. Berry addressed the senate on the general subject of tariff legislation. He denied the correctness of Mr. Hays' statement that the tariff had been finally settled at the last presidential election. The majority of the American people (Mr. Berry asserted) had not declared in favor of the protective tariff, but rather in favor of the party that advocates a tariff for revenue only. Besides nothing that the tariff could do to protect the American industry from foreign competition. He did not but sympathize with the senator from Kansas (Mr. Plumb) and with the people who are in the East. He said that the tariff would teach them to have more self-reliance for their treatment of the tariff. He said that the tariff would teach them to have more self-reliance for their treatment of the tariff.

WASHINGTON, Aug. 5.—After the reading of the journal Mr. Blagden of Pennsylvania moved to lay on the table the bill to amend the act to provide for the election of the President and Vice-President. The motion was agreed to. The bill to amend the act to provide for the election of the President and Vice-President was agreed to.

In the House.

WASHINGTON, Aug. 5.—After the reading of the journal Mr. Blagden of Pennsylvania moved to lay on the table the bill to amend the act to provide for the election of the President and Vice-President. The motion was agreed to. The bill to amend the act to provide for the election of the President and Vice-President was agreed to.

The Southern Republic.

BUENOS AIRES, Aug. 5.—Notwithstanding the fact that the inspection here has terminated, great excitement prevails throughout the city and the disquiet continues to increase. Senor Lastra, the leader of the party which supports Gen. Alvear, who was formerly president of the republic, has been offered a seat in the cabinet, but declined it.

The Lottery Lobby.

Seating in Proposed Legislation a Chance to "Steal" the Louisiana Company.

WASHINGTON, Aug. 5.—The Louisiana lottery agents and lobbyists in Washington are in a state of high excitement. They are in a state of high excitement. They are in a state of high excitement.

TELEGRAPH BRIEFS.

SARATOGA, N. Y., Aug. 5.—First race, one mile: Rupert won, with King Crab second and Belle D'O' third. Time, 1:28.

Second race, the stake for 3-year-olds, one mile and a furlong: Simon won, with Emulous second and Daisy F. third. Time, 1:56 1/2.

Third race, three-quarters of a mile: Despatch won, with Brindford second and Foxmote third. Time, 1:13 1/4.

Fourth race, the Kearney stakes, one mile and a furlong: The Angel won, with Cassius second and Floodtide third. Time, 2:33.

Fifth race—Three-quarters mile: The Redoubt won, with Bertha Campbell second, and Julie C. third. Time, 1:18.

Explosion of Gas Occurred Today in a Mine at Carbona, Wash., killing Henry J. Jones aged 30 and T. B. Morgan aged 37. Thomas Williams was badly injured.

Reports of Alabama crop conditions: Cotton, 93 per cent of a full crop; corn, average 93 compared with five years ago, and 81 compared with last year.

The high court of the order of Foresters at London, has refused to agree to a proposal to expunge the paragraph of the investigating committee report, stating that freedom of action having been granted in the matter of graduated contributions to American court, an obstacle has been removed which has hitherto impeded the order.

The Paris appeal court, has affirmed the sentence of six months' imprisonment imposed on M. Secretan for his connection with the recent copper syndicate, but has reduced his fine of 10,000 francs to 3000.

A Busy and Convincing Scene.

SALT SPRING MARIE, Aug. 5.—Could members of congress have been present here yesterday evening or today the chances are they would be convinced of the value of the Salt at once.

The sea is almost beyond description. On either side of the lake as far as the eye could reach was a forest of masts and smokestacks, while the sides of the chamber and the canal were packed with a mass of vessel captains, belated passengers and tourists. Up lockages were continued all night, but as soon as darkness intervened all down passages will stop until morning. There are 137 locks in all, from the lock looking outwards to the sea. A number of up-bound vessels left on special orders of the lock-keepers, where they will take cargo. Of passenger ships six of the Transatlantic line from Buffalo, two of the Canadian line from Montreal, and one Canadian Pacific boat are blocked with over 1200 passengers.

Look at This.

The self of self, sec. 34-40-15, \$1000 per acre. This adjoins New Duluth and Spirit Lake Park, and is without doubt the best-located forty for sale at any price.

S. M. CHANDLER, 404 Palladio building.

A Bargain.

In a block of eleven lots in West Duluth, for few days only.

D. W. SCORRY, 401 First Nat. bank.

### State Troops Are Guarding

Mexicans Who Have Shot at Them.

Some Crimes and Casualties Elsewhere; The Dark Side.

MAHUA, Tex., Aug. 5.—News was brought in by the foreman of the mines at Shafter of a killing which took place at 12 o'clock in the morning. It seems a crowd of Mexicans had got on a spree and were firing off their weapons when several of the white miners, rangers and deputy-sheriffs went down to see what was the matter. Suddenly they were fired upon from ambush, and State-lieutenant J. P. Graves was instantly killed and the Lee, deputy United States marshal, was seriously wounded in the arm. The fire was returned and it is believed one Mexican was killed and several wounded.

A physician, Capt. Jones, several rangers and deputy sheriffs have left for the scene. Trouble has been brewing with the Mexicans at Shafter for some time, and it is believed that the intention was to rob and burn the mines.

Later two rangers came in with the body of Graves to be sent to Laredo. They report that the miners and rangers have about 100 Mexicans surrounded, and are guarding them until further assistance can get to them, when they will pick those connected with the shooting and bring them to Marfa for safe keeping.

The whole trouble is said to come from the lynching of a Mexican some months ago.

MURDER AND SUICIDE.

MINNESOTA, Aug. 5.—A long standing quarrel between Hans Hansen and his wife culminated in a tragedy yesterday. He had some words with his wife and seizing a club, crushed her on the skull, killing her instantly. He dragged her body to the barn where he swung it from a rafter by a rope. He then tried to hang himself with a portion of the rope, but failing went to the house and blew his brains out with a shotgun.

NEBRASKA OUTLAW.

LINCOLN, Neb., Aug. 5.—Remnants of the gang once led by the famous outlaw "Doc" Middleton, have been operating in central Nebraska. Sunday night they made a raid on the ranch of Frank Taylor not far from Hastings for his horses. Taylor and number of men were in waiting and a lively battle ensued. The robbers made their escape. Vigilante committees are being formed in the central and western parts of Nebraska.

EMPLOYEES DON'T LIKE IT.

MILWAUKEE, Aug. 5.—A new law has been put in force in the big Pabst brewery, each employee being limited to three bottles of beer daily. Heretofore it was the practice to let every man drink as much beer as his capacity for the amber liquid would permit, and some of the brewery men would consume forty to fifty glasses a day without a struggle. Nevertheless the new rule has been found to have had a salutary effect as regards the work of the men, but they complain of the "arbitrary" treatment of the company. The allowance of beer to the men means 1,000,000 bottles of beer annually that the brewing company furnishes its men. All other breweries in the city still hold on to the old practice.

TELEGRAPH BRIEFS.

## WANTS TO REDUCE FEES.

Chamber Moves for Stated Salaries for County Officers.

Mayor Davis Talks on Water Situation; Council Doings.

The Chamber of Commerce at its meeting this morning discussed a number of very important matters. One of the most important was introduced by Maj. Baldwin, which he considered was a matter in which every taxpayer in St. Louis county was interested. He called attention to the fact that last year the receipts of the register of deeds office were \$10,000 and the expenses \$10,000, leaving a balance for the register of \$5,000. The sheriff's office received \$7,500 and the expenses were \$7,500, leaving a balance of \$2,500. In the office of the clerk of courts the receipts were \$12,500 and the expenses \$12,500, leaving a balance of \$2,500. The major was confident that plenty of good and competent men could be secured at a salary of \$2,500 a year, thereby saving a saving amount of \$12,500.

In many counties in this state and Dakota, proper legislation to place the officers on a salary basis have already been taken and the plan has been found to work admirably. There has been no reduction in the amount of fees and the residue has been turned over to the county treasury. The city council and the commissioners frequently wrangle for a long time over the salary of a single officer, but here in the county the matter is settled in a few minutes and no time is wasted in the committee on legislation.

The question of a city clerk which was brought before the chamber and caused considerable discussion. Alderman Coselle was anxious to hear the committee on the subject of the city clerk. It was decided as the sense of the present that the city should appoint a clerk for a term of years, and the matter was referred to the committee on harbor for further investigation to report next week.

The special committee appointed to look after the claim of Charles Chasler and John D. Gill to a large amount of property in the Duluth division reported, recommending that the property be returned to the owners. The committee on harbor reported that the city should appoint a clerk for a term of years, and the matter was referred to the committee on harbor for further investigation to report next week.

Secretary Thompson reported that the Sioux City car pulled into Duluth at 10 o'clock, and besides several men, it carried a large number of representatives of the Sioux City car, and although their stay in the city would be very short, the chamber should take some action concerning their entertainment. It was decided that the visitors should be entertained by the city, and the matter was referred to the committee on harbor for further investigation to report next week.

The members of the Scandinavian Lutheran church will meet tonight to consider the advisability of making a call for a new pastor. The church is a new one, and the members are anxious to have a new pastor. The matter was referred to the committee on harbor for further investigation to report next week.

A communication from the Commercial and Industrial association of Montgomery, Ala., asking the chamber to protest against the Lodge election law in that state, was received and referred to the committee on legislation.

The committee appointed for the purpose reported that the proposed building had been fitted up for the Northwestern building company at a cost of \$10,000, but there had been a little delay about beginning work on account of a slight misunderstanding. The committee decided to make further effort towards an excursion to the South for the Proctor Knott party, until the party is organized in the matter. Major Frank L. Telford was elected to membership on the board of directors.

## AT THE COUNCIL.

Several Important Improvements Much Business is Transacted.

At the regular meeting of the council last evening Mayor Davis presented a communication concerning the laying of water pipes across the Point—a question which at present is interesting every loyal citizen of Duluth. The mayor could not conceive of a city council or city ordinance by laying pipes across the Point and by without first securing the permission of the city council. In several cases Duluth has allowed West Superior to obtain benefits from the city, and this spirit is not confined to citizens of Duluth, but extends to different parts of the state and is indulged in by even some of our state officials.

"Our attitude in regard to what is being done on Minnesota Point and the bay by the West Superior water company will be such as will be consistent with law and order and for the best interest of the city, and I am confident that we will have your hearty cooperation."

The matter of paving Second street and grading Oregon avenue from Lake Superior to Fourth street were referred to the committee on streets. The grading of Sixth avenue east was declared unnecessary. The regular monthly bills were audited and ordered paid.

The amended ordinance granting the Duluth Gas & Water company the right to connect their system with the West Duluth mains was passed. The city retains the right to shut off the water supply at any time the Duluth supply seems insufficient.

Harbormaster Miller presented a communication recommending that the city purchase property for a public dock, near the Union depot as possible. The matter was referred to the committee on harbor. Building Inspector Shaffer informed the council that the plan for the Union depot contemplated an iron awning projecting into the street on the Michigan street side. The matter was referred to the committee on streets.

The contract for the free ferry was awarded to L. M. Steppes at \$180 a month. He is to operate a row boat twenty-four hours a day, and is required to furnish a boat for \$300. Passengers are to be allowed to carry 100 pounds of baggage.

A communication from M. J. Burrows asking that the sidewalk on the Third avenue side of his new building be widened to twelve feet, was referred to the committee on streets. A petition from S. Sallick to remove a frame building on West Superior street, resolution was passed authorizing the paving of Garfield avenue to its full width.

WEST DULUTH. Hoping for More Short Line Service: West Duluth is strongly emphasized every day. Work on one should begin immediately. If the passenger traffic on the St. Paul & Duluth is as large during the winter as during the summer, the contract we now have will not be able to shelter the passengers. Something must be done immediately in the matter. It is hoped by many that the Northern Pacific will put in a short line to West Duluth soon.

Sunday School Picnic. A picnic will be held tomorrow by the children of the united Sunday schools in West Duluth. The day will be held on the 10th of the month. The picnic will be held on the 10th of the month. The picnic will be held on the 10th of the month.

Notes. The social of the Epworth league at Quota M. E. church was one of the most successful ever held. Over 200 persons attended the social. Dr. C. L. Catlin has opened a barber shop on Second street south of the old stand of R. Nevers.

Considerable difficulty is met with in building the foundation for the water tower at the corner of Fourth avenue west and Central avenue. The water is the cause of the trouble. The silvery building on Grand avenue which settled some weeks ago has been placed in its proper position by George Kettler.

U. S. G. Sharp & Co. are building an addition to their office on Central avenue. Dr. Calvin Graves was a visitor with E. L. Luther, of Ogden & Luther, yesterday.

Persons. Messrs. Danforth and De Wolf returned from their trip to an exploring trip into the Wisconsin woods.

## WHALEBACKS ON OCEAN.

To be Used for Transporting Cuban Ore to Philadelphia.

Member of the Sigma Iron Co. of Cuba Predicts Great Things.

Duluthians will remember that last winter a couple of Brooklyn shipbuilders came to Duluth to look over the McDonough shipyard and get points on building whalebacks, they having a contract with the company to build two or more for ocean trade. They are now about ready for business and will be followed by others. These boats are being built about the same capacity as the 100 and 150, carrying 2000 tons each.

A member of the Sigma Iron company, a large concern recently incorporated in New York, was interviewed on the subject, and he said that the company was now building whalebacks for the company to build two or more for ocean trade. They are now about ready for business and will be followed by others. These boats are being built about the same capacity as the 100 and 150, carrying 2000 tons each.

The Silvery building on Grand avenue which settled some weeks ago has been placed in its proper position by George Kettler.

## SPORTING NOTES.

The Duluth Baseball team have concluded to challenge the West Superior club to play for a \$100 a side. Captain Scoville says that they may select their own time and place.

The New York Players' club has five of the ten leading hitters of the Players' league.

Joe McLaughlin, who is matched tonight Frank P. Slavin, has gone into training quarters at Wells-Next-the-Sea, on the east coast of England.

No more legitimate successor of Pittsburgh is likely to be found than Baltimore, and Barnie's team greatly strengthened in more than a probability of the National league circuit of 1891.

Those three-year brotherhood trade do not seem to be of much force. Krook, Buckley, Rainey and Latham, all of whom were good "brothers," were cut off last week.

Plenty of lines are out for Nat. Hudson of the Minneapolis club. The St. Louis, Syracuse, and Buffalo are all out for a match with the St. Louis club.

There is some talk of securing a team of long-distance runners for a play an exhibition game with Minneapolis next month. The team belongs to some of the South Dakota.

It is almost certain that next season the Players league will abolish Buffalo. The players have cast their eyes particularly at Cincinnati, Detroit, Baltimore.

The breaking down of Proctor Knott and Spokane furnishes a most amusing long-distance race for 3-year-olds, especially in the spring of the year. It is a fact that nearly every winner of the latter race is a winner of the former.

Joe Sheehy says the \$100 he posted as a forfeit for a match with Pat Kil. Kil, Ed Smith or John Kil, either of these men will win the match. The Northwest team will play for a prize of \$100 for a meeting with a prize of \$100.

A Minor League in Good Work. Matanzas, Mich., Aug. 5.—The Upper Peninsula league has rapidly been ahead during the past two or three weeks, and now occupies a leading position among minor leagues of the country.

The acquisition of baseball has lagged elsewhere, it has grown here, and few are the games played in the city. Houghton has been most materially strengthened during the week by the acquisition of Foster and Hengle, a pair of the best players in the country.

Those who claim to know state that his contract requires him to play in the city. It will cost us at least \$100 to get our own to Philadelphia than it will to get them to Pittsburgh. This is outside of the advantages of cheap labor and mining out of the side of a mountain.

It will be for a day and a half before we shall be ready to ship any more. We must complete our facilities and then we can ship. We are satisfied of its value. Cuban ore is hard to get in contradiction to the hematite ore, which forms part of the Lake Superior product and which is 12 or 13 per cent water. Consequently we will have to pay freight and duty on water.

It is very similar to that mined by the city which has begun at Duluth. It is in the right of the mine, and it will be to mine for us before we will have to mine for us. The cost of the transportation over our own rails at least 50 cents a ton to get our ore to Philadelphia than it will to get them to Pittsburgh.

That Museum. The Project Falls Favor on all sides; Room in the High School. Not a little excitement has been created among Duluth people over the proposition to provide a splendid natural history museum and Alaskan ethnological collection for the Duluth public school at night. Every one who has spoken to the subject has favored it heartily and has been of the opinion that an effort should be made to secure a prize that may never again be offered at so small cost. A number of gentlemen have called at the school to see the collection, or part of it, would be continued until projected.

It has been proposed also, and the proposition seems excellent, that a mineralogical collection be added, if it is not obtained. The various objects have been made of valuable specimens and small collections. In fact it appears that a start in the line of museum local collections and single specimens in many lines.

Architect Hall of the firm of Palmer & Hall, designers and builders of the new Central high school, today that there was a splendid room in the new building planned and set off for a museum of a room designed for the study of taxonomy. He thought the idea of a museum was a most valuable one.

It is the most of the best high schools of the United States," said he, "before we began work on the Duluth school building. In many and three evidently progressive and best schools, there were museums more or less complete, but all were added to the building and not part of the building. The school instruction was greatly aided by them and they had been in the building for many years."

The New Catholic Paper. The Lake Superior Catholic, a weekly newspaper, will soon pass into the hands of a Duluth stock company, consisting of many of the wealthiest Catholics at the head of the lakes. Efforts will be made by the company to raise a capital stock of \$25,000, and perhaps to change the paper from a weekly to a daily, and make many other valuable improvements. The company is also engaged in negotiating with Thos. O'Hagan, L. L. D. of Ontario, to act as editor of the paper.

Low Rates to Boston. National Excursion Grand Army of the Republic. Willie A. Gorman post No. 13, G. A. R., by the underground committee on transportation, has selected the Duluth & Atlantic railway as the route they will take to the national encampment at Boston.

For rates and full particulars call on S. W. Higgins, Commander. S. R. Rogers, A. D. C. Commander-in-Chief. Or city office, 327 West Superior street.

Chandler Park. I have two very choice 100-foot corners on Collingwood and Cliff avenues for sale cheap and on easy terms. S. M. Chandler, 404 Palmetto building.

Children Cry for Pitcher's Castoria. Smoke the Edison cigar, the finest in the market. W. A. Foote & Co.

## ONE CENT A WEEK.

Advertisements under this head received at the following places, besides the business office of the Herald:

## HERALDINGS OF A DAY.

The News Told Down.

## Local.

A boy severely injured.  
A new Catholic paper.  
The Chicago state quarries.  
The major's idea of West Superior.  
The auction project meeting with favor.  
The Van Dusen-Eliot company reorganized.  
The Chamber of Commerce wants fees reduced.  
Weather forecast: Warmer, fair weather, southerly winds.  
Trains sent to the Mountain Range from Chicago.

## National.

Accident at Tower.  
Floods in the third city.  
Newsmen will do tomorrow.  
A tariff decision in the senate.  
Narcotics killed at Chicago.  
Democratic victory in Alabama.  
British sailors desert at Newport.  
Associated Press meeting at Detroit.  
Silverware marked up at New York.  
World's fair committee meet tomorrow.

## Northwest.

Condition of the Yellowstone Park.  
A train placed in Milwaukee breweries.  
Hail storm in southern Minnesota and northern Iowa.

## City Affairs.

The firm of Day & Schilt, dentists, has dissolved partnership. Mr. Schilt, residing at 1000 Broadway, is at work making many needed changes and repairs in the Y. M. C. A. building.  
Grace Methodist Sunday school held a picnic today at Fond du Lac, going on the steamer Barker this morning.  
Louis Rochelle will build a very handsome house on the corner of Broadway and Second street.  
At the meeting of the St. Paul chamber of commerce yesterday resolutions regarding the St. Paul canal were passed.  
The board of equalization is examining the books of the outside towns and cities today.  
A train of Duluth & Winnipeg flat cars was pulled out to the end of track today with rails, the first service of the cars.  
Licenses to marry were granted to Simon O. Vahon and Kaisu J. Vahon, and Addison J. Davis and Theresia Hahn.  
In the last five days three large cargoes of Portland cement have been received by Quimby & Omsie. Most of it goes north from here.  
Mollie Murray, a lady of color, was given ten days in the county jail this afternoon for getting drunk and disturbing the peace generally.  
Chief M. Gaudin believes that the murderer of the unknown man on Lake Avenue dock will yet be captured. Sheriff Sharkey has the same opinion.  
The Northwestern Building company has begun to move its stock to Duluth. Its name has been changed to the Duluth & Superior Building company.  
The handsome residence of Col. A. B. Jones, corner Second street and Second Avenue east, was sold at auction yesterday by Bernard & Dabney for \$27,000.  
L. C. Mitchell has sold his place on Second street near Fifth Avenue east, and will build a fine house on East Fourth street near Chester Brook, or Glenwood Park.  
At a meeting of the finance committee of the Y. M. C. A. it was resolved to take immediate action in regard to the raising of \$1500 necessary to the completion of the present year's work.  
The first of the series of popular concerts at the Bethel will be given tonight, and as an excellent program has been arranged, there will probably be a large audience.  
Park Point street cars are now running clear to Onat-ka beach, three miles below the canal. Business of the rail way line is much larger in consequence, and the motive power of the company is expected to, unanimously, go on strike.  
The following quarries at Clapnet, Minnesota, were reported at the Pioneer Fuel company's office, Hotel St. Louis, 230 Superior street, 12 m., 37 1/2 p. m., 52 1/2 p. m., 63 1/2 p. m., 74 1/2 p. m., 85 1/2 p. m., 96 1/2 p. m., 107 1/2 p. m., 118 1/2 p. m., 129 1/2 p. m., 140 1/2 p. m., 151 1/2 p. m., 162 1/2 p. m., 173 1/2 p. m., 184 1/2 p. m., 195 1/2 p. m., 206 1/2 p. m., 217 1/2 p. m., 228 1/2 p. m., 239 1/2 p. m., 250 1/2 p. m., 261 1/2 p. m., 272 1/2 p. m., 283 1/2 p. m., 294 1/2 p. m., 305 1/2 p. m., 316 1/2 p. m., 327 1/2 p. m., 338 1/2 p. m., 349 1/2 p. m., 360 1/2 p. m., 371 1/2 p. m., 382 1/2 p. m., 393 1/2 p. m., 404 1/2 p. m., 415 1/2 p. m., 426 1/2 p. m., 437 1/2 p. m., 448 1/2 p. m., 459 1/2 p. m., 470 1/2 p. m., 481 1/2 p. m., 492 1/2 p. m., 503 1/2 p. m., 514 1/2 p. m., 525 1/2 p. m., 536 1/2 p. m., 547 1/2 p. m., 558 1/2 p. m., 569 1/2 p. m., 580 1/2 p. m., 591 1/2 p. m., 602 1/2 p. m., 613 1/2 p. m., 624 1/2 p. m., 635 1/2 p. m., 646 1/2 p. m., 657 1/2 p. m., 668 1/2 p. m., 679 1/2 p. m., 690 1/2 p. m., 701 1/2 p. m., 712 1/2 p. m., 723 1/2 p. m., 734 1/2 p. m., 745 1/2 p. m., 756 1/2 p. m., 767 1/2 p. m., 778 1/2 p. m., 789 1/2 p. m., 800 1/2 p. m., 811 1/2 p. m., 822 1/2 p. m., 833 1/2 p. m., 844 1/2 p. m., 855 1/2 p. m., 866 1/2 p. m., 877 1/2 p. m., 888 1/2 p. m., 899 1/2 p. m., 910 1/2 p. m., 921 1/2 p. m., 932 1/2 p. m., 943 1/2 p. m., 954 1/2 p. ## ng.

## COMING LUMBER CENTER.

W. C. McClure Believes Duluth is to be the Center in the West.

That's Why He is Here; A Large Contract; Notes of Mills.

W. C. McClure, the Saginaw lumber man, while always ready with a hearty hand-shake and pleasant word for a newspaper man, is sometimes very uncommunicative on subjects relating to his business while in a reporter's presence. In the such a mood a Herald man found him. "There is positively nothing new concerning our business here," I think The Herald has had everything up to date. Matters in connection with our mill and railroad here are moving along smoothly. The work of constructing the former will soon begin.

"What do you think of Duluth's chances as the coming lumber center of the Northwest?"

"Well, I have enough faith in her future to locate here. At present, of course, Ashland is the objective point for Eastern buyers, because she has more mills and buyers and a larger number of stocks from which to select. At present it would be folly for a lumber buyer from Albany to come way up here to Duluth unless he was quite positive he could get what he wanted. But mark my words, inside of five years Duluth will have five times her present number of sawmills, and her lumbermen will have more than at Ashland, with about the same rates. And, too, it doesn't make any difference on which side of the bay these mills may be located, they cannot fail of benefit to Duluth."

Continuing, Mr. McClure said: "There is one thing about Duluth people that I admire, and that is their abiding faith in their city; it seems to be part of their religion. Well, that's what makes city. Am I coming here to live? Yes, I expect that in about a year I will become a resident of Duluth. It is just this same abiding faith of your people that has brought me here, with the mill and is bringing thousands of others every year."

A Big Contract for a Duluthian.

Contractor E. B. Dear has returned from Escanaba where he took the contract for the building of large ore and merchandise docks for the Schlesinger & Iron Mountain Railway Company. The ore dock will be an immense structure, having 282 pockets, and the merchandise dock will be 140 feet long. The Seven million feet of timber will be required to complete the contract.

Lumber Notes.

A 20,000,000 foot log drive is now running Little Falls. This drive makes 250,000,000 feet of lumber that has passed down this season, with 150,000,000 feet yet to come. "The Pearson mill at Saginaw," says Mr. McClure today, "may be sold to one of the burned out millers there. If it is sold it will not build here. If it is not, I think the chances are on this side, he will move it here. The mill is a fine one and is practically new."

Lumbermen down the Iron Range are large and the mills at Tower and Mesabi are doing excellently. C. H. Davis of Saginaw, junior member of the big lumber firm of Wright & Davis, operating at the upper Mississippi, is in Duluth. "The drives have been good this year," said he, "and the upper river is well cleared out. The Duluth & Winnipeg road can bring in a great deal of lumber here and I believe it will in turn be used to freight lumber from the St. Louis and Cuyahoga river piers to mills here. It will develop a tremendous lumber traffic, too, at the junction with the Mississippi."

A FERRY INJURED.

About 6 o'clock last evening the ferry George P. Savidge, while entering the St. Paul & Duluth ship, was run into by the tug Tyder and sustained considerable damage. The tug struck her a little forward of midships on the port side, taking out twelve stanchions, shifting the pilot house about eight inches and smashing two planks at the bow. Capt. Maloney of the Savidge, was at the wheel, and had his left hand quite badly bruised.

The crew of the Savidge claim that the Tyder was at fault. "When we reached the ship," they say, "the Tyder met the Savidge backing out, and coming wide open. We blew our whistle, to which the Tyder paid no attention. When we were near enough we called to them to go ahead, but they didn't, hence this wreck." It may be necessary to entirely rebuild the Savidge's pilot house, as it is badly broken and twisted.

Marine Notes.

The new steel steamer Maryland came up to expectations as a carrier. She took out of Escanaba a cargo of 3140 gross tons of iron ore, drawing 13 feet 11 inches forward and 16 feet 3 inches aft. This is the largest cargo ever carried by a lake craft, being equivalent to 3312 net tons and about 11,000 barrels of wheat.

The fine new steel steamer Emily P. Wood, arrived at Toledo today from West Bay City. She was tested as to speed, and made fifteen miles per hour, which is fast work for new machinery. A Sault correspondent says: "Recent developments are not complimentary to T. or his engineers. The broken valve is a massive one of cast iron, weighing three tons. It is turtle-shaped with wrist on each end, and the wrist rests in grooves, and swung back and forth. Instead of being solid or steel, the wrist were low and of cast iron. The middle had been drilled out and the rim was but two inches thick. Engineer Wheeler says the break is on a new crack and that rust could have formed in two hours. Not a single man here agrees with Mr. Wheeler on that point. The reason assigned for the accident, is that it was done by the blasting in the new lock. At the time of the accident the steamer Alberta was in the lock, and a charge of dynamite was exploded, and the Alberta about as she were a clip. Mr. Farrell, one of the contractors, declares the explosion to have had no effect. A diver who was at work at the time of one blast says he thought the lock gate was falling on him, and at every blow the effect is felt in houses a mile away."

Standing Room Only.

Last evening the "S. R. O." sign was displayed at the Temple Theatre, and the large audience seemed pleased with the performance. "Wanted, a Husband" was the title of the most of the different members of the company acquitted themselves creditably.

Smoke the Edison cigar, the finest in the market. W. A. Foote & Co.

## FROM WEST DULUTH.

A Big Contract Let; A West End Bay's Narrow Escape; Notes.

The West Duluth Land company has let the contract for the grading of the unplatted forty acres bounded by First avenue east on the west, Fourth street north on the south, and Onosota on the east and north, to Pat McDonald for \$27,000. A good many people think that some large manufacturing plant is to be placed in this division and this accounts for the withdrawal of Sixth avenue property, and the continued refusal of the company to sell anything in Third division just to the south. Sixth division is located just northwest of this property and would undoubtedly rise considerably in value if a large plant would be located on these unplatted forty acres.

Personal.

George W. Boyden of St. Paul, has been appointed agent of the St. Paul & Duluth railroad at this point, Frank Cook having resigned.

C. P. Pattinson of the West End, is taking the place of Conductor Darrah on the incline during the latter's absence.

Messrs. Danforth and De Wolf have returned to Mora. They will be back next week.

Two Good Transfers.

Charles W. Hoyt sold lots 14, 15 and 16 in block 39 in the First division yesterday for \$4800.

A. P. Freeberg sold lots 9 and 10 with house in block 130, Fifth division, for \$3600 to St. Paul parties.

Notes.

The jury on condemnation proceedings held an all-day session yesterday, but no more mills and buyers are given a larger number of stocks from which to select.

A number of mechanics are placing the machinery in the woolen mills.

The Congregational church will give an excursion on the Bayview next Thursday to Fond du Lac.

Warrants have been issued for the four parties who assaulted Julius Peterson and his teamster yesterday.

Robert McCann was fined \$10 for assault upon Newton Anderson.

John Nelson was sentenced yesterday to pay a fine of \$5 and costs for drunkenness.

The statement that the car works would start up on the 14th is incorrect. It will be probably a month later at least.

The Carpenters' union has posted notices stating that after August 15 a day's work will consist of the hours between 7:30 a. m. and 5:30 p. m.

## WEST END.

Mr. Marion's 4-year-old boy, living near the corner of Twenty-second avenue and Fourth street, of the city company. He had a string around his neck and this caught on a nail. The other child, John Hildner, living in No. 320, his face soon became black, so they went to his father's home and informed them that they were getting into a bad way. He was cut out from being in a bad way, and a few minutes more would have killed him.

To Celebrate.

The Swedes will meet this evening at Nordmann hall to consider the advisability of holding a celebration on the 14th of September, that being an anniversary of the landing of the Swedes in America over 250 years ago. If there is a good gathering tonight and a good feeling, there will undoubtedly be a celebration on that date.

Personal.

Miss Millie Phillips of Chippewa Falls is here visiting friends.

M. L. Frazier, the popular mail carrier, is making a vacation of fifteen days. Quite a large number went on the excursion of the First Methodist church yesterday.

Policeman John Wade's wife, who has been ill for some time, is improving.

Notes.

Rev. R. A. Sanderson of Clonquet will preach at the Grace Methodist church next Sunday morning and evening.

The W. F. M. society of the Methodist church will meet Friday afternoon at the parlance.

C. R. Doherty will close out his stock and move up town.

The Sunday school of the Grace Methodist church cleared about \$33 by the excursion. About \$15 was cleared by the Ladies Aid society.

The Young Peoples society of the Swedish Lutheran church will meet tonight at the church to talk over business matters.

A Quaker Presentiment.

A queer story comes from Norwich, Conn., which is touched for by well known Duluth man formerly a resident here. John Hildner, living in No. 320, was at work on a farm for a man named Gottschalk, living some distance from Norwich. Shortly after noon a peculiar feeling came over him and he went to the house. When asked what was the matter he told of his feeling, but said that he was perfectly well, and returned to his work. Still the queer feeling did not leave him, and at 3:30, as he says, an unseen hand struck him in the breast, and for several moments he seemed stunned. He remained in bed, however, and worked until nightfall. When he came in from work he found Mr. Gottschalk just returned from Norwich with the news that his son was drowned at 3:30 o'clock while bathing. Was it a presentiment?

The Lower Court.

Judge Morris occupied his seat in the municipal court this morning, and ten culprits were before him to greet his return. Of the six drunks three paid fines and were released, one had his sentence suspended on promise of good behavior, and two were put to work on the streets. There were two charged with fighting, one paid fine and the other was committed to jail. One vagrant was given work. P. L. Peterson, charged with obstructing the streets was fined and then the sentence was suspended.

Steam Applied to Digging.

Speaking of the patent excavator invented by Duluth men and being set for a severe test in Superior, as noted in The Herald yesterday, The Superior Leader of this morning says: "Kirkling & Starkey are setting up a steam excavating machine on the Broadway sewer line. It is a new device for hoisting the earth excavated out of deep trenches. Cars and trucks are also provided for coal docks, warehouses, elevators and heavy shipyards."

Wagon Road to Bay View Heights.

The growth of the new suburb has been rapid during the past few months that a new and better wagon road is found necessary between West Duluth and Bay View Heights. The Bay View Land company has now a force of men grading a road from the top of the hill to West Duluth, following the line of the incline road. It will be completed as soon as possible and will be much appreciated by the residents of Bay View Heights who own their own horses and carriages.

## VISITORS TO DULUTH.

The Proctor Knott Party Comes Next Wednesday Morning.

Sioux Citizens Tomorrow; Outing in Alaska and the Park.

S. T. Johnson received a letter last evening which stated that the Proctor Knott party would leave Louisville next Monday, Aug. 11, and, barring accidents, would arrive in Duluth at 11 o'clock on Wednesday. There will be fifteen people in the party and Bertha Magoffin will be in charge after they leave Louisville. They will be met at Chicago by J. D. Mendenhall and wife, who will accompany them to Duluth. From Chicago they will come over the Wisconsin Central.

S. T. Johnson, who has had the matter in charge in Duluth and has made every effort to make the visit of the Kentucky party a pleasant one, has been remembered, stated that nearly enough money had been collected to make the party a pleasant one, but, "but," said he, "although they are from south of Mason Dixon's line and notwithstanding the fact that there is a large Southern contingent in Duluth, none of them, so far, have chipped in towards the entertainment of the visitors. And I'd like to have you say so."

There has been some little talk among the leading democrats of the city about giving a reception to Henry Waterson Proctor Knott. So far, however, there has been nothing but talk; still it is more than probable that such an affair will be arranged. The "Star-Eyed" does "look upon" by the democrats not only as a shrewd politician, but a leader, and an affair of this kind will strengthen their cause.

Prominent Tourists From Alaska.

A party of tourists, including a number of stockholders of the Northern Pacific, arrived in the city this morning by special train from the West, and are at the Spaulding. The party consists of H. C. Davis, right-of-way agent of the Northern Pacific; Charles S. Colby, a director of the road, wife and child; C. H. Rogers, stockholder and director, wife and daughter; Miss Anna Knowlton, Miss Beattie Simpson, Miss Beattie Danahill, Dr. G. G. Shelton, John Plummer, Edward Kelly, Colby and E. Hicks Herriek of New York, and Miss Annie Graves and Sidney Graves of Chicago.

The party is simply out for pleasure, and according to Mr. Rogers the mission has been fulfilled. They left New York July 1, and went through to the Pacific coast, thence by steamer to Alaska. On the return they took a trip through Yellowstone park, and this morning they were shown the beauties of Duluth scenery.

The Core Palace Crowd.

The Sioux City core palace train will arrive in the city tomorrow morning about 8 o'clock and will be on exhibition for the rest of the week. There will be six or six cars in the train and it will be accompanied by about 125 representative business men of Sioux City. The very short stay of the party in the city, it will be impossible to furnish much entertainment, but Sioux City is regarded as one of Duluth's closest allies, the Chamber of Commerce will be glad to give the party as much attention as possible, and to this end a boat has been chartered, and the party will be taken on a tour around the bay and out into the lake.

To the Holy Land.

The influx of people into the ancient city of Jerusalem has caused quite a stir in and around the city, and is attracting the attention of Hebrew hustlers all over the country. Al Kahn, Isaac Freimund, and others, who are on their way now to the Holy city, and it is rumored that they will be joined in New York by Al Bondy and others from Detroit.

RE IN MUSEUM.

The Superintendent of schools believes it to be a Most Valuable Feature.

Superintendent of Schools Denfeld on being asked by a Herald reporter his opinion of the practicability of a natural history museum in connection with the high school, on the plan heretofore outlined in The Herald, said that Mr. Storey, proprietor of the valuable collection in the city, had been asked to give the school board and that until he did so, steps could be taken toward securing it. He expected that Mr. Storey would soon make some offer if he wished to carry the plan to execution.

The Superintendent Denfeld was in hearty accord with the idea of a museum and said that in his visits to leading schools in leading educational centers the natural history museums seemed to be a valuable feature of the school system. "We shall not have," said he, "any place for such a collection for a year unless it is put into the Edison school, which will be completed by the close of the calendar year. Next fall the high school will give an excellent place and in fact a large room is planned for just such a collection. We shall take the matter up as soon as we have anything definite to act on and go ahead."

To Improve the Point.

The Mankato Review speaks as follows of the new plans of the South Duluth Land company: "Messrs. Willard and Piper of the city, associated with other capitalists, have made another important investment at Duluth. Putting out from the main shore, and forming the bay of Superior is a narrow strip of land six miles long and known as Mankato Point. Through the upper part of this point is the canal, admitting vessels to the harbor of Duluth. The eastern end of the Point has never been improved. It was owned by Mr. P. H. Kelly and other St. Paul capitalists. The syndicate above referred to has bought out the interests outside of Mr. Kelly, and the land is to be utilized. It has an excellent bay frontage, with abundant water for large vessels and is adapted to coal docks, warehouses, elevators and heavy shipyards."

LOW RATES TO BOSTON.

National Encampment Grand Army of the Republic.

Willis A. Gorman post No. 13, G. A. R., of Boston, has been granted a special transportation, has selected the Duluth, South Shore & Atlantic railway as the route to take to the national encampment at Boston.

For rates and full particulars call on S. W. Hildner, Duluth, or S. R. Norris, A. D. C. Commisario-Chie Duluth or City office Duluth, South Shore & Atlantic railway, 327 West Superior street.

## THE IRON TOWNS.

News of the Day Gathered in Tower and Two Harbors.

Tower, Aug. 7.—(Special to The Herald.)—The Australian who had his seven fingers cut off by letting his hands run over the wire rope on a shive, had to have his fingers amputated down to the knuckles yesterday.

R. N. Marble, Duluth, land attorney, accompanied by his son, has been in the city this week.

Miss Louise Jones, who has lived here for the past four years, departed this morning for Lapel, where she will reside in the future.

Wanted.—One copy The Weekly Herald. The Herald company will give three months' subscription to the weekly, each for two unutilized copies of Vol. 1, No. 2.

Two Harbors.

R. W. McKee, county auditor, has gone to Montana for a two month's vacation.

Mr. and Mrs. W. J. Stoneburner, returned from Duluth on a trip to the East.

About forty of the bridge carpenters were laid off Duluth & Iron Range road on the 1st, on account of having completed the work in that department. A. B. Wilfong, of the bridge crew, is going to West Superior to take contracts for buildings.

Ed Howard and Abe McKee have a pair of the finest registered massifs in the country. They were cut 5 months old and weigh 75 pounds each.

The Minnesota Iron company's steamship "Marquette" left for Duluth at 10 o'clock, making the run from the Sault in twenty-six hours.

There has been in town looking it over for the purpose of starting a furniture store in Two Harbors, but concluded the venture was not profitable.

Col. Sweet, assistant editor and business manager of The Iron Post, left town yesterday for a trip to the West.

Must Have One Too.

Articles of incorporation of the Superior Yacht club have been forwarded to the secretary of state at Madison, and will be filed in the state office.

The right is reserved to reject any and all bids.

## CITY BRIEFS.

A largely attended excursion to Fond du Lac was given today by the First Methodist Sunday school.

Albert Wiseman, manager for the celebrated lectures, Madida Platches, making arrangements to have her deliver her lecture on "The Problem of the Ages" in Duluth at an early date.

L. J. Richardson, who has for some time been a member of the real estate firm of N. B. & E. T. Merritt, will, with his son, A. L. Richardson, engage in the real estate business for himself under the firm name of Richardson & Son.

Runaways are an every day occurrence nowadays. A team belonging to Frank Clark ran down St. Croix avenue to the old pier in the lake where they were stopped. No damage done except to the wagon, which was slightly smashed up.

The following variations in temperature were reported at the Pioneer Fuel company's office, Hotel St. Louis, 326 Superior street: 12 m., 60°; 3 p., 50°; 6 p., 50°; 9 p., 51°; 7 a., 50°; 9 a., 50°; 12 m., 58°; Maximum, 63°; Minimum, 53°. Daily range, 10°.

Chief Haffey inspected the fire escapes and stand pipes on the Spaulding this morning and found them to be in splendid condition.

Louis Klevy is moving his stock of drugs into his new store in the Long block.

William G. Joerns brings suit against Allice A. Smith and others to regain half division of the city of Duluth, 100,000 shares of stock, against J. A. Bowman, Jr., registered at the St. Louis.

Jas. P. Stevenson brings suit against Seth Scott and Samuel Owens for an unlawful arrest.

Marriage license was granted today to Martin Brown and Emma L. Magnusson. Hattor Hatterson took the oath of allegiance today.

Mr. Griffiths and wife of Minneapolis are guests at the Spaulding.

H. W. Shadle of St. Paul is registered at the Spaulding.

J. A. Bowman and wife and J. A. Bowman, Jr., are registered at the St. Louis.

Felix Trainor of Minneapolis is at the St. Louis.

V. K. Benham of St. Paul is at the St. Louis.

Exc-Governor Jerome and wife of Saginaw, Mich., are registered at the Spaulding.

Manager Emerson of the Spaulding returned from Chicago on a three week visit to his former home at Lewes, Del. Judge C. L. Brown is in the city visiting his old partner, T. H. Chiew.

W. T. Bailey is on the iron range visiting the promising property of the Minnesota Mining company, on section 16, near Tower, in which he is interested.

Mrs. C. H. Granger of Grand Rapids, Mich., is visiting her son J. E. Granger for a few days.

Ex-Alderman Selwyn Eddy and wife of Bay City, Mich., arrived in the city this morning from the South.

Miss A. M. Sloan, who has been teaching elocution in this city for the past few months, left this afternoon for her home in Cincinnati. She will spend a few days with friends in Indianapolis on her way home.

Miss Hattie Ritter, who has been visiting friends in Duluth, left yesterday for a short visit to St. Paul before returning to her home in Indianapolis.

William D. Edson of Uaupilla, N. Y., accompanied by his wife and child, is in the city visiting friends and relatives. Mr. Edson is a brother of Attorney R. E. Edson.

Hon. Ezra G. Valentine, wife and two children of Breckinridge, Minn., and Hon. W. E. Purcell and wife of Wahpeton, N. D., are on their way to Boston via the Great Lakes.

To Complete Negotiations.

R. L. Ettinger of the Minnesota Car company left this afternoon for Chicago and will go to Richmond and New York. During his absence he expects that negotiations will be completed for the reorganization of the company. There are now only one or two parties with whom matters have not been satisfactorily arranged, and this will take a few days, as the works are all done through attorneys.

Good canvassers wanted. Regular pay guaranteed. Apply at Herald office.

Joe Durant has opened first-class dining-rooms over 413 West Superior street. Everything new and neat.

Look at This.

The set of 64, sec. 34-40-15, \$1000 per acre. This adjoins New Duluth and Spirit Lake Park, and is without doubt the best-located forty for sale at any price.

S. M. CHANDLER, 404 Palladio building.

Look at This.

Can be bought for one-tenth cash and balance in eighteen monthly payments, without interest. All taxes are paid by Bay View Land company for two years. A \$200 lot costs but \$20 cash and \$10 per month. Remember these lots are on graded streets, with sidewalks laid and fine shade trees budding the grounds. The new suburb is only seven minutes ride from the incline station at West Duluth, and eight daily trains each way are run from Bay View Heights to West Duluth, the fare being only five cents each way on commutation tickets. Investors or home seekers should look these opportunities up. Go and see the property, and you can not fail to be pleased with it.

## WORLD OF COMMERCE.

The Market Slumping Off Under its Excessive Weight.

A Decline of 3-4 to 1-1-2; Crop News Now More Favorable.

MINNEAPOLIS, Aug. 7.—[Special to The Herald].—The Market Record today has the following from Col. C. D. Rogers on the wheat crop.

There is one complaint from the wheat fields in the Northwest that is universal, it is that the tops of the heads have not filled. That will be found on threshing to mean smaller yield than would commonly be estimated, and local estimates are, from that alone, likely to be cut down.

The whole red river country is estimated by some to yield 10 to 15 bu. by others 10 to 15 bu. West of that it is figured at 10 to 15 bu. for an average by different judges. There is much wheat that has a large yield and a small yield in the same territory. If the experts are not mistaken, there will still remain above 50,000,000 bu.

One trouble in estimating wheat has been that the acreage has increased faster than the figures noted it. Another trouble is that there are too many people interested in speculative value to get at the truth.

The Great Northern road brought to Minneapolis from the last crop 10,000,000 bushels of wheat from August 1, to July 31. The same company hauled to Duluth 1,000,000 more, making a movement for that road of 30,000,000 bushels. It figures now on a movement of 35,000,000 bushels for this crop.

The Local Market.

The natural sequence to the extremely high and firm market which has prevailed here during the past few days, took place today in the shape of a good-sized decline. The market opened at 3/4 below yesterday's close for cash wheat, while August and September were unchanged. The market continues weak, steadily with good trading up to about 11 o'clock, when under free selling the bottom fell out of the market, September declining 1/4 and August 1/4 from the opening. All options took a hard hit, and the close was very weak. Crop news from the Northwest today were more favorable.

Cash No. 1 hard closed at 97 1/2, cash No. 1 northern 96, cash No. 2 northern 92 1/2, August No. 1 hard 97 1/2, bid, August No. 1 northern 96, bid, September No. 1 hard 93 1/2, bid, September No. 1 northern 92 1/2, nominal, December 91 1/2, bid.

Today's Movement.

Cash wheat, 2,500 bu.; corn, 1,500 bu.; shipments: No. 1 northern, 20 cars; cash, 2, total, 30.

Live Stock Market.

CHICAGO, Aug. 7.—Hogs: Receipts, 20,000; market moderately active, steady; light, \$1.45; heavy, \$1.40; packing, \$1.35; shipping, \$1.30; receipts, 12,500; market firmer, sales \$1.35; heavy, \$1.30; packing, \$1.25; shipping, \$1.20; receipts, 10,000; market steady, sales \$1.30; heavy, \$1.25; packing, \$1.20; shipping, \$1.15.

ILLINOIS CROPS.

The State Has Suffered Much for Lack of Rain.

SPRINGFIELD, Ill., Aug. 7.—The last month has been one of unusual drought and high temperature, and much damage is being done to growing vegetation of every description. The corn crop and pastures have suffered in some portions.

Out of the 102 counties only four fail to complain. In the northern division the condition is reported at six-eight, in the central seventy-nine, and in the southern at fifty-four, making the state average of about sixty-seven.

The acreage of wheat harvested, in round numbers was 1,300,000, and the total yield 14,000,000. The estimated area seeded to oats is 3,250,000 acres; the average yield per acre eighteen bushels, making a total of 58,500,000 bushels, as compared with 142,000,000 bushels last year.

Building Permits.

Three permits were obtained at the inspector's office today. H. A. and F. W. Smith were granted one for a row of three-story brick tenements on First street and Twentieth avenue west, cost \$25,000. W. Erickson took out one for a \$1300 two-story frame residence on south side of Fourth street between Twentieth and Twenty-first avenues west, and Tobias Grady one for a \$1000 two-story frame residence on the north side of Fourth street between Twenty-eighth and Twenty-ninth avenues west.

In a Notch.

A young man, quite prominent in some rather peculiar social circles, and connected indirectly with the United States land office, is absent from the city on account of certain rumors regarding overdrawn checks. The police claim ignorance as to the affair.

Notes.

Many of the boats now arriving at Duluth show evidence of having taken advantage of their recent enforced delay at the Sault to take on fresh supplies. The need of coats of paint and to make other needed improvements.

To Nervous People.

Pick up any newspaper, from Maine to Texas, or Florida to Alaska, and you will find a host of advertisements with the above heading. Presumably these are for people whose nerves are weakened by disease, but there are many other kinds of nervous people in this queer world. Some are subject to all sorts of apprehensions when about to take a journey. The train may run off the track. The boat may be wrecked. The bridge on some roads are not safe. The train may start ahead of time and they get left. They may miss their connection with another line. The road does not run into a union depot. The conductors and brakemen are holy terrors. The "candy buffers" on the train are insolent. Their baggage will surely be smashed. They know their trunks will get lost. They will be misdirected when they "change cars." They are in a state of nervousness, and they would say, buy your railroad tickets over "The Big Duluth," because you feel sure, go to sleep in their comfortable Pullmans, and you will wake in the morning, you and your belongings all safe, happy, and an excellent breakfast in the dining car, and arrive at your destination on time. For rates, tickets, or any information, consult your nearest ticket agent, or address W. C. Kenyon, Gen. Pass. Agent, C. & N. R. R., St. Paul, Minn.

Baking Powder ABSOLUTELY PURE

## AMERICAN TILES.

Oliver Wendell Holmes Talks About Them in "Over the Teacups."

August Atlantic: It is a very curious fact that with all our boasted "free and equal" superiority over the communities of the Old World, our people have the most enormous appetite for Old World titles of distinction. Sir Michael and Sir Hans belong to one of the most extended of the aristocratic orders. But we have also "Knights and Ladies of Honor" and what is still grander, "Royal Conclave of Knights and Ladies," "Royal Aroum," and "Royal Society of Good Fellows," "Supreme Council," "Imperial Court," "Grand Protector" and "Grand Dictator," and so on. Nothing less than "grand" and "supreme" is good enough for the dignitaries of our associations of citizens. Where does all this ambition for names without realities come from? Because a Knight of the Garter wears a golden star, why the contrary, who wears the mends the shoes of his fellow citizens, want to wear a tin star and take a name that had a meaning as those of the aristocracy of ancient families, or the men who had made themselves illustrious by their achievements?

It appears to be a peculiarly American weakness. The French Republicans of the early period thought the term "citizen" was good enough for anybody. At a later period, "le Roi Citoyen"—the citizen king—was a common title given to Louis Philippe. But nothing is so grand for the American, in the way of titles. The president of them all signifies absolutely nothing. They do not stand for ability, for public service, for social importance, for large possessions; but, on the contrary, are oftenest found in connection with personalities to which they are supposedly inapplicable.

We can hardly afford to quarrel with a national habit which, if lightly handled, may involve us in serious domestic difficulties. The "Right Worshipful" functionary whose equiptage stops at any back gate and whose best-looked-for for sale at any price, \$6, cause by so doing we have made our Boys' Department a busy place these days. We're doing more than giving the very best value for the money, with every purchase of \$10 or over we present you with one of our Porch Reclining Chairs—free of charge—and the Big Duluth Express Wagon with every boy's suit.

ECONOMY, says a wite saying, is the road to wealth. Then the road to wealth starts from the Big Duluth. We have determined that everything pertaining to summer wear must go strong, THIS GREAT RED FIGURE MARK DOWN SALE.

For boys' vacation wear our knee pant suits at \$3, excellently well made of stylish and durable Cheviots. You'll hardly find their like in other stores for less than much again. It was the hit of the season when we made the price \$6, cause by so doing we have made our Boys' Department a busy place these days. We're doing more than giving the very best value for the money, with every purchase of \$10 or over we present you with one of our Porch Reclining Chairs—free of charge—and the Big Duluth Express Wagon with every boy's suit.

The set of self, sec. 34-40-15, \$1000 per acre. This adjoins New Duluth and Spirit Lake Park, and is without doubt the best-located forty for sale at any price.

A Citizen of Des Moines.

Please to accept acknowledgments and commend to others the use of Krause's Headache Capsules. They have been thoroughly tested by myself and for people whose nerves are weakened by disease, but there are many other kinds of nervous people in this queer world. Some are subject to all sorts of apprehensions when about to take a journey. The train may run off the track. The boat may be wrecked. The bridge on some roads are not safe. The train may start ahead of time and they get left. They may miss their connection with another line. The road does not run into a union depot. The conductors and brakemen are holy terrors. The "candy buffers" on the train are insolent. Their baggage will surely be smashed. They know their trunks will get lost. They will be misdirected when they "change cars." They are in a state of nervousness, and they would say, buy your railroad tickets over "The Big Duluth," because you feel sure, go to sleep in their comfortable Pullmans, and you will wake in the morning, you and your belongings all safe, happy, and an excellent breakfast in the dining car, and arrive at your destination on time. For rates, tickets, or any information, consult your nearest ticket agent, or address W. C. Kenyon, Gen. Pass. Agent, C. & N. R. R., St. Paul, Minn.

We are binding The Century and Harper's at 50c and 55c per vol.

**LAST EDITION.**  
**ITS TERRIBLE BUSINESS.**  
The Immensity and Evil of the Lottery Shown to the World.  
An Earnest Appeal to States and National Government.  
Baton Rouge, La., Aug. 8.—At a late hour last night the committee to formulate an address to the people of the United States and to memorialize the President and Congress made the following report, which was adopted. The address as follows:  
Your fellow citizens of the state of Louisiana, opposed to lottery gambling and lottery charters, assembled in convention at Baton Rouge, make to you this appeal for all in the struggle to suppress the lottery, which is a powerful corporation, which sits here among us like a giant octopus and stretches its arms to the remotest hamlet in the land. For your sympathy we ask not, for we know we have it by the unanimous voice of the free press of this country, which, untouched and untouchable by lottery influence, has denounced in unflinching tones the infamy we are combating. We desire briefly to state to you the facts.  
The aggregate of the schemes of the monthly and semi-monthly drawings in the fabulous sum of \$25,000,000 per annum and the aggregate of their daily drawings is over \$2,000,000 more.  
They receive annually \$1,250,000 from the written policies sold on the numbers of the daily drawings apart from the sale of the regular printed tickets. They receive annually about \$22,000,000 from their monthly and semi-monthly drawings. The schemes of the lotteries are so arranged that they can sell 75 per cent of their tickets, pay 10 per cent for selling them, lose all the prizes provided for in the schemes, pay \$1,000,000 for expenses and still make \$3,000,000 profit per annum.  
We make no idle assertion when we denounce these schemes as fraudulent, even from a lottery standpoint. This company offers to distribute less than 25 per cent of the proceeds of the lottery on earth that we know of outside of Mexico is allowed to distribute less than 25 per cent. The chance to win a prize of any sort in one of these drawings is about one in thirty, whereas if it were a lottery, the chance to win a prize of any sort in one of these drawings is about one in thirty, whereas if it were a lottery, the chance to win a prize of any sort in one of these drawings is about one in thirty.  
These were the reasons which induced two postmasters general to exclude it from the mails as a fraudulent lottery. What is known as daily drawings, which pay every day except Sunday. The prizes paid are out of all honest proportions to the cost of the tickets or the chances of winning. For instance, for a \$1 ticket the chances for winning a prize of eighty-five cents is one in three, of winning \$1.00 is one in nine, for winning a prize of \$1.25 is one in 125. In addition to these printed tickets, the lotteries sell policies, or bets, on the numbers of the daily drawings are taken at the fancy of the bettor, with percentages of from 10 to 41 in favor of the lottery. From the information one can get the receipts of these policy sales, which are \$100 in New Orleans, \$200 in New York, \$300 in St. Louis, and \$400 in Chicago. None but the poor and ignorant enter these dreadful doors. Some of these shops have "chance" boards and other stimulants to aid the superstitious in selecting lucky numbers. By daily repetition of play thousands of poor wretches become afflicted with the "lottery craze" and to gratify this theft and embezzlement enter innumerable homes. We have the authority of the lottery that 12 per cent of this enormous revenue of \$22,000,000 comes from the people of this country outside of the state of Louisiana. In Louisiana localities where it could not be purchased the local press has started a hiring press of its own. It's iniquitous business is blown by adverse winds of windings all over the country, and it thus stimulated a gambling thirst in tens of thousands of ignorant and credulous persons.  
While the postoffice department is the principal instrument of the robbery of the people outside of Louisiana, the express companies also lend material aid. Being excluded from the mails, the lotteries as a fraudulent lottery it skulks under the individual name of its president and the name of a national matter that passes through New Orleans postoffice is lottery mail, and \$200,000 per annum in postal notes and money orders are paid to its stalking horse bank.  
If any state is as shameless as to use its present untrammeled power, it ought to be restrained by the American people. To that end we recommend the adoption of an amendment prohibiting any lottery at present or in future. A proposition to amend the constitution covering this ground except in the abolition of existing lotteries is now before the committee of the United States senate. The legislation specially recommended by the President and postmaster-general to exclude lottery business and advertisements from the mails and express companies is aimed in the right direction, and we ask its speedy adoption. We also ask that candidates for election everywhere be seen to be on the right side. All this we ask in the name of our common citizenship and in behalf of public honor. We further request the free press to give this address the widest publicity.  
It is named.  
St. Paul, Aug. 8.—The Minnesota Farmers' alliance executive committee ended a two-day session last evening. It was decided that the party should be known as the alliance and labor union party and several members of the labor party were added to the committee. It was the sense of the committee that all lecturers should take collections at their meetings and remit to the finance committee, which should pay all the expenses of the lecturers. Candidates that were able to make contributions should be asked to do so. The owners of all elevators should be asked to give something for the cause. The campaign meant death to the large elevators and their losses.  
We have a very large list of acres in 49-15 at prices that will return a handsome profit in the next six days. See us at once.

**THE EVENT CLOSING.**  
Odd Fellows Turn Their Faces Homeward Tonight.  
CHICAGO, Aug. 8.—The principal events of the Odd Fellows' encampment closed today. This morning the final contest for the Rebekah degree staff work was opened in Battery "D" by American Degree lodge 183 of Chicago, competitive work being done by degree staffs of Ruth Rebekah Degree lodge No. 1 of Omaha, Nebraska, and the Elita Rebekah Degree lodge No. 2 of Chicago. At 12 o'clock the canton battalion competitive drill was resumed on the lake front.  
Award of prizes for the entire competition of the week will be made tonight. Following the drills there will be a competitive contest this evening between non-commissioned officers and chevrons in the manual of the sword. Lieut. Gen. Underwood will be master of ceremonies at the full dress reception ball and promenade concert in Battery "D," which will bring the events of the day to a close.  
The President Thanks.  
New York, Aug. 8.—President Harrison has written to William H. B. Hall, the well-known journalist and author, expressing his thanks for the action of the latter in promoting the crusade against the caricatures of the President which were exhibited in the various stores, restaurants, and other places in New York city. Mr. Harrison's thanks are also included in the communication. As a result of the crusade all the caricatures and other offensive illustrations of the President have disappeared from the metropolis, and one or two stores which persisted in exhibiting them have been boycotted by their customers.  
Merely Postponed.  
WASHINGTON, Aug. 8.—The senate lays aside the tariff bill today in order to take up the river and harbor bill, and the consideration of this measure will be postponed until it has been floundered in the House. Senator Morrill is quoted as saying that this action does not in any measure mean the abandonment of the Lodge force bill. He says, we find it impossible to pass both the tariff and the elections bill, we will lay the latter aside until after the November elections in the interest of the business of the country.  
Will Settle Down's Case.  
WASHINGTON, Aug. 8.—Owing to the fact that a large number of members of congress intend to participate in the national encampment of the Grand Army at Boston next week, Chairman Morrill and the select committee appointed by Speaker Cannon to investigate the case of William H. B. Hall, have postponed their report until after the November elections.  
The Ice Question.  
NEW YORK, Aug. 8.—Within two days there have arrived here forty schooners bringing cargoes of ice from Maine, New Brunswick, and other northern ports. The price of this commodity reached this city yesterday. Many speculators have noted the arrival of this big fleet and hoped that it would have the effect of relieving the scarcity and bringing lower prices. Today, however, the market held out any hope of a reduction in the famine rates.  
Wisconsin Turners' Picnic.  
MILWAUKEE, Aug. 8.—The twenty-first district festival of the Turners of Wisconsin opened in this city today and will continue until Monday. The festival is a grand affair, and the Turners of Wisconsin are expected to arrive at their homes here today or tomorrow. It is said that his resignation is a matter of public interest, and it is not likely to be taken into consideration as a place of residence.

**TEARS THINGS IN A CITY.**  
Minneapolis has a Cyclone That Scars More Than it Hurts.  
Several Roofs Moved off and the West Damaged a Little.  
MINNEAPOLIS, Aug. 8.—[Special to The Herald.]—Minneapolis was during last night treated to an exhibition of atmospheric agitation of a genuine cyclonic nature, and many of the boldest began to look about for places of safety. It was about 10 o'clock when the storm struck the city, and for several minutes travel on the streets was rendered unsafe by reason of flying signs and other debris. The pedestrians easily found shelter, but the hackmen and others who were driving were less fortunate, and several had narrow escapes. The force of the wind was irresistible. The storm on the ground was a very severe one, but those who watched the clouds from commanding points, say that they were of the regulation funnel shape. At the West hotel the storm demolished one of the chimneys on the Heeneipen avenue side, which crashed down to the walk below in unpleasant proximity to the carriage standing by. The large plate glass in the front of the reading room was blown out, and also the glass in the basement near the sidewalk. The roof of the Hale block was lifted and shifted, and the building was badly shaken. A portion of the roof of the city hall was also demolished and thrown on the street. At Fifth street and Second avenue south the forty-foot tower which had been erected for the purpose of photographing the New York city building, was blown down on to a boarding house at 427 Second avenue.  
**PUMMELED AN EDITOR.**  
Two Municipal Women Thrust Him For Writing Them Up.  
SPRINGFIELD, Ohio, Aug. 8.—E. T. Spinning, editor of The Weekly Budget, was pummeled last night by Sue McDonald and Louise Snyder, two women who he had written up. They lived on a disreputable street known as the Levees. When they saw the article they went up town arm in arm with the avowed intention of doing Commings up. The men police judge young and informed him of their intention. The judge laughed at them, supposing they were only joking. When they went to Commings' office, upstairs on south street, they found Commings alone. He inquired if he was the editor, and, receiving a negative answer, he picked up Commings, who is rather a small man, up and placed him against the wall. The women then went to the committee on their mercy, and they belabored him. They finally let Commings go. He staggered away to the police station, and ordered them to go. They had gotten even satisfaction and left without any further trouble. Today, however, the popular, and there is great rejoicing over the thrashing he got.

**MEET IN ITALY.**  
Next Evangelical International Conference in Italy.  
New York, Aug. 8.—Invitations have been received here by representatives of the leading religious denominations to the next general conference of Christians of all nations convened by the Evangelical Alliance, to be held in Italy, in April of next year.  
The Protestants of Italy are so poor that the British and American alliance will have to provide for the expense of the conference which will amount to about \$100,000. A paternal letter accompanies the invitation, it says among other things:  
"Dear most honored brethren of every country and every tongue, come in large numbers to strengthen us by your sympathy and counsel. The Evangelical church in Italy is by far the most ancient of the Protestant churches, yet it is not to be marveled at if she is small. The wonder is that she exists at all. You will come into a free Italy and in the sight of a people clear sighted in intellect but ill-instructed, you will manifest under many varieties of aspect and name the unity of a faith which fully reasons and retains all that is Christian among Christians, which gives special prominence to what unites, and respects that which divides, meanwhile presenting above all churches the kingdom of God and His righteousness."  
**THE NICARAGUA CANAL.**  
Heavy Rains Retard The Improvement That are Making at Greytown.  
PANAMA, July 30.—The latest intelligence from reliable sources at Greytown report a renewed activity in the American canal preparatory works. It is intended to run the jets out a couple of hundred feet in order to afford complete protection to the entrance of the harbor and canal, and also to permit dredging operations, which could not be carried on in the open sea. The depth of the harbor is gradually being increased, and already a large steamer has safely entered the inner bay.  
As far as the work of railroad construction is concerned, Mr. Treist is making his utmost endeavors to push that work forward as rapidly as possible. The miles of track are not only graded, but the rails have also been laid, so as to permit the use of a construction train, which is at work filling in and raising the grade through the heavy swamp a few miles from Greytown. He is, however, greatly hindered by the continuous and heavy rains that have fallen lately, and for the tardy supply of railway material. If all goes well, however, the road will be completed at an early date as far as the work of construction is concerned.  
**WILL VISIT CHICAGO.**  
Arrangements for the International Iron and Steel Convention.  
NEW YORK, Aug. 8.—About Oct. 1, the representatives of the iron and steel interests in America and Europe will meet in convention in this city and discuss the condition of the metal markets of the world. One of the features of the convention will be a tour through the mines and manufacturing centers of the country. The guests from abroad will be mostly members of the Iron and Steel Institute of Great Britain and the Verein Deutscher Eisen-Huttenleute. There will probably be 400 visitors from Europe. The sessions of the association will be held in Chickering hall.  
The proposed trip through the country is an extensive one. Special trains will be at the disposal of the guests. According to the plan of the committee Philadelphia will be visited Oct. 4, and the party will remain there four days, and then go to Chicago. They will make stops at Altoona, Harrisburg, Johnstown and Pittsburgh, where steel rails are made. At Pittsburgh there will be a session at which papers of a scientific and practical character will be read. From Chicago a party will be made to the mines of the Lake Superior region. Those who choose, however, to visit the South will be taken to the iron works of Birmingham, Ala., returning by way of Ponce de Leon, Okla. and the L. & N. C. R. R. to New York. Many small excursions will be made from various cities. Andrew Carnegie has been asked by the committee of arrangements and will be present to look after the guests from abroad.

**THE WAR ON THE KNIGHTS.**  
Liable to be Trouble Over the New York Central Boycott.  
Labor Day in Chicago to be Celebrated in Great Style.  
NEW YORK, Aug. 8.—The difficulty between the Knights of Labor and the New York Central road assumed a rather startling shape today. Today J. J. Holland of the executive board of the Knights, made three different attempts to hold a conference with Vice-President Webb, in regard to a peaceful solution of the trouble. Mr. Webb refused to talk with him and motioned him out of the office.  
Then Mr. Holland talked the matter over with Mr. Touney and the latter went to see Mr. Webb. This gentleman remained obdurate. Then Mr. Holland asked Mr. Touney for the reinstatement of the discharged men but got no reply. The district committee of the Knights will meet this afternoon and further consider the matter. Mr. Powderly and Mr. Hayes, the secretary, are in Philadelphia, ready to be called if their presence is desired.  
The impression is growing among the employees of the road that the war upon the Knights is decided upon some time ago, and that Mr. Depey being opposed to it went to Europe so as to be absent when the discharges occurred.  
**FOR SEPTEMBER 1.**  
Labor Day in Chicago to be Celebrated as Never Before.  
CHICAGO, Aug. 8.—Labor day will witness a demonstration which, from present indications, will eclipse anything of the kind ever witnessed in Chicago. The first Monday in September this year falls on the first of the month and two big parades will tramp about the streets and afterwards picnic. It is expected that over 30,000 men will march in the procession. The Knights will hold their picnic at Willow Springs and the Labor assembly will give its exercises at Ogden Grove. Elaborate programs have been prepared for both places including speeches, music and sports.  
**RIFLE SHOOTING.**  
Camp Douglas, Wis., Monday's Military Camp Ground, Will Hear Shots.  
MILWAUKEE, Wis., Aug. 8.—One of the greatest rifle contests that the West has ever seen will begin at Camp Douglas on the 18th of this month, to be followed on the 24th of September by a no less important contest. The first is between teams representing the four districts of the department of the Missouri U. S. A. Forty men will compete, and out of this number will be selected the ten best shots to make up a department. These ten men will be the best shots out of 15,000 regular army soldiers. On Sept. 24, the regular army will compete with the militia organizations of the states of Illinois, Indiana, Iowa, Minnesota and Wisconsin.  
Luncheon for picnic and parties prepared on short notice will be served at Camp Douglas, except between the hours of 12 and 2 p. m.

**PERSONAL.**  
Mrs. A. W. Ringland is quite ill.  
H. H. Hoyt of Saginaw was in the city.  
Miss E. Harwood of Soudan is in the city today.  
J. Kaufmann of St. Paul is a guest at the Spaulding.  
Capt. John Fennelly and wife of Tower were in the city today.  
F. McMillan of Minneapolis is registered at the Spaulding.  
Mayor Davis left by lake route this afternoon for Okego, Iowa.  
Miss Belle Morlans has returned from a short visit to friends in Fargo.  
J. T. Schuler and N. O. Norton of St. Paul are registered at the St. Louis.  
W. H. Penobdy, wife and daughter of Dubuque are registered at the Spaulding.  
Mrs. S. Sellick has returned from the South and East after an absence of six months.  
J. B. McLaren, manager of the Underwriters' union, returned today from Chicago.  
Bookkeeper J. M. Christy of the state inspector's office, has returned from Pennsylvania.  
M. Mehan and D. M. Philbin of the South Shore road were in the city today on business.  
Richard Cullen—the chief knight of the ash barrel—leaves tomorrow for an extensive Eastern trip.  
Miss Nellie Barnard, of the Northern Pacific Junction, spent last evening with friends in Duluth.  
Jas. B. Dowling of St. Louis, a Duluth property holder, arrived in the city this morning and will remain for some time.  
Fred Coulson, connected with the firm of Chas. Bolvin & Co., music dealer of Detroit, is in Duluth and may locate.  
T. B. Barnes of the Farmers and Merchants bank, Duluth, is sojourning in the city.  
Miss Gibbons and Miss McNeil of Minneapolis and Miss May of Winona are visiting Mrs. B. Lytt on West Fourth street.  
Paul Martin, a prominent citizen of St. Paul, and a member of the board of fire commissioners of that city is in Duluth on business.  
Miss Kate Reed, who has been attending the summer school of languages in this city, returned last evening to her home in Waterloo, Iowa.  
Dr. R. M. Metcalf and C. A. Travis, of the Omaha railroad, leave this evening for a day or two's chicken shooting in the vicinity of Richmond, Wis.  
Mr. and Mrs. Geo. H. Prudden, A. M. Prudden and family, J. B. Scovell and family and Miss Ila Bennett are camping for a week at Onat-ka Beach.  
Joseph Helmke, who for some time past has been in the office of the Lake Superior Mining and Manufacturing Review, left this noon for Minneapolis.  
Capt. Frank Barrett has returned from a trip to Cincinnati and Virginia to make arrangements for shipping part of the machinery for the new furniture factory.  
The father and mother of County Treasurer Johnson, and his brothers, have arrived from their home in New Haven and are visiting them. It is Mr. Johnson's first visit to the West.  
J. B. Holmes of Minneapolis, one of the projectors of the Duluth, Northwest and Winnipeg roads, which The Duluth & St. Louis has already spoken, is at the St. Louis on business connected with the reorganization of the road.  
Now is the time to buy from our large list of acres in 49-15.

The President Thanks.  
New York, Aug. 8.—President Harrison has written to William H. B. Hall, the well-known journalist and author, expressing his thanks for the action of the latter in promoting the crusade against the caricatures of the President which were exhibited in the various stores, restaurants, and other places in New York city. Mr. Harrison's thanks are also included in the communication. As a result of the crusade all the caricatures and other offensive illustrations of the President have disappeared from the metropolis, and one or two stores which persisted in exhibiting them have been boycotted by their customers.  
Merely Postponed.  
WASHINGTON, Aug. 8.—The senate lays aside the tariff bill today in order to take up the river and harbor bill, and the consideration of this measure will be postponed until it has been floundered in the House. Senator Morrill is quoted as saying that this action does not in any measure mean the abandonment of the Lodge force bill. He says, we find it impossible to pass both the tariff and the elections bill, we will lay the latter aside until after the November elections in the interest of the business of the country.  
Will Settle Down's Case.  
WASHINGTON, Aug. 8.—Owing to the fact that a large number of members of congress intend to participate in the national encampment of the Grand Army at Boston next week, Chairman Morrill and the select committee appointed by Speaker Cannon to investigate the case of William H. B. Hall, have postponed their report until after the November elections.  
The Ice Question.  
NEW YORK, Aug. 8.—Within two days there have arrived here forty schooners bringing cargoes of ice from Maine, New Brunswick, and other northern ports. The price of this commodity reached this city yesterday. Many speculators have noted the arrival of this big fleet and hoped that it would have the effect of relieving the scarcity and bringing lower prices. Today, however, the market held out any hope of a reduction in the famine rates.  
Wisconsin Turners' Picnic.  
MILWAUKEE, Aug. 8.—The twenty-first district festival of the Turners of Wisconsin opened in this city today and will continue until Monday. The festival is a grand affair, and the Turners of Wisconsin are expected to arrive at their homes here today or tomorrow. It is said that his resignation is a matter of public interest, and it is not likely to be taken into consideration as a place of residence.

**TEARS THINGS IN A CITY.**  
Minneapolis has a Cyclone That Scars More Than it Hurts.  
Several Roofs Moved off and the West Damaged a Little.  
MINNEAPOLIS, Aug. 8.—[Special to The Herald.]—Minneapolis was during last night treated to an exhibition of atmospheric agitation of a genuine cyclonic nature, and many of the boldest began to look about for places of safety. It was about 10 o'clock when the storm struck the city, and for several minutes travel on the streets was rendered unsafe by reason of flying signs and other debris. The pedestrians easily found shelter, but the hackmen and others who were driving were less fortunate, and several had narrow escapes. The force of the wind was irresistible. The storm on the ground was a very severe one, but those who watched the clouds from commanding points, say that they were of the regulation funnel shape. At the West hotel the storm demolished one of the chimneys on the Heeneipen avenue side, which crashed down to the walk below in unpleasant proximity to the carriage standing by. The large plate glass in the front of the reading room was blown out, and also the glass in the basement near the sidewalk. The roof of the Hale block was lifted and shifted, and the building was badly shaken. A portion of the roof of the city hall was also demolished and thrown on the street. At Fifth street and Second avenue south the forty-foot tower which had been erected for the purpose of photographing the New York city building, was blown down on to a boarding house at 427 Second avenue.  
**PUMMELED AN EDITOR.**  
Two Municipal Women Thrust Him For Writing Them Up.  
SPRINGFIELD, Ohio, Aug. 8.—E. T. Spinning, editor of The Weekly Budget, was pummeled last night by Sue McDonald and Louise Snyder, two women who he had written up. They lived on a disreputable street known as the Levees. When they saw the article they went up town arm in arm with the avowed intention of doing Commings up. The men police judge young and informed him of their intention. The judge laughed at them, supposing they were only joking. When they went to Commings' office, upstairs on south street, they found Commings alone. He inquired if he was the editor, and, receiving a negative answer, he picked up Commings, who is rather a small man, up and placed him against the wall. The women then went to the committee on their mercy, and they belabored him. They finally let Commings go. He staggered away to the police station, and ordered them to go. They had gotten even satisfaction and left without any further trouble. Today, however, the popular, and there is great rejoicing over the thrashing he got.

**MEET IN ITALY.**  
Next Evangelical International Conference in Italy.  
New York, Aug. 8.—Invitations have been received here by representatives of the leading religious denominations to the next general conference of Christians of all nations convened by the Evangelical Alliance, to be held in Italy, in April of next year.  
The Protestants of Italy are so poor that the British and American alliance will have to provide for the expense of the conference which will amount to about \$100,000. A paternal letter accompanies the invitation, it says among other things:  
"Dear most honored brethren of every country and every tongue, come in large numbers to strengthen us by your sympathy and counsel. The Evangelical church in Italy is by far the most ancient of the Protestant churches, yet it is not to be marveled at if she is small. The wonder is that she exists at all. You will come into a free Italy and in the sight of a people clear sighted in intellect but ill-instructed, you will manifest under many varieties of aspect and name the unity of a faith which fully reasons and retains all that is Christian among Christians, which gives special prominence to what unites, and respects that which divides, meanwhile presenting above all churches the kingdom of God and His righteousness."  
**THE NICARAGUA CANAL.**  
Heavy Rains Retard The Improvement That are Making at Greytown.  
PANAMA, July 30.—The latest intelligence from reliable sources at Greytown report a renewed activity in the American canal preparatory works. It is intended to run the jets out a couple of hundred feet in order to afford complete protection to the entrance of the harbor and canal, and also to permit dredging operations, which could not be carried on in the open sea. The depth of the harbor is gradually being increased, and already a large steamer has safely entered the inner bay.  
As far as the work of railroad construction is concerned, Mr. Treist is making his utmost endeavors to push that work forward as rapidly as possible. The miles of track are not only graded, but the rails have also been laid, so as to permit the use of a construction train, which is at work filling in and raising the grade through the heavy swamp a few miles from Greytown. He is, however, greatly hindered by the continuous and heavy rains that have fallen lately, and for the tardy supply of railway material. If all goes well, however, the road will be completed at an early date as far as the work of construction is concerned.  
**WILL VISIT CHICAGO.**  
Arrangements for the International Iron and Steel Convention.  
NEW YORK, Aug. 8.—About Oct. 1, the representatives of the iron and steel interests in America and Europe will meet in convention in this city and discuss the condition of the metal markets of the world. One of the features of the convention will be a tour through the mines and manufacturing centers of the country. The guests from abroad will be mostly members of the Iron and Steel Institute of Great Britain and the Verein Deutscher Eisen-Huttenleute. There will probably be 400 visitors from Europe. The sessions of the association will be held in Chickering hall.  
The proposed trip through the country is an extensive one. Special trains will be at the disposal of the guests. According to the plan of the committee Philadelphia will be visited Oct. 4, and the party will remain there four days, and then go to Chicago. They will make stops at Altoona, Harrisburg, Johnstown and Pittsburgh, where steel rails are made. At Pittsburgh there will be a session at which papers of a scientific and practical character will be read. From Chicago a party will be made to the mines of the Lake Superior region. Those who choose, however, to visit the South will be taken to the iron works of Birmingham, Ala., returning by way of Ponce de Leon, Okla. and the L. & N. C. R. R. to New York. Many small excursions will be made from various cities. Andrew Carnegie has been asked by the committee of arrangements and will be present to look after the guests from abroad.

**THE WAR ON THE KNIGHTS.**  
Liable to be Trouble Over the New York Central Boycott.  
Labor Day in Chicago to be Celebrated in Great Style.  
NEW YORK, Aug. 8.—The difficulty between the Knights of Labor and the New York Central road assumed a rather startling shape today. Today J. J. Holland of the executive board of the Knights, made three different attempts to hold a conference with Vice-President Webb, in regard to a peaceful solution of the trouble. Mr. Webb refused to talk with him and motioned him out of the office.  
Then Mr. Holland talked the matter over with Mr. Touney and the latter went to see Mr. Webb. This gentleman remained obdurate. Then Mr. Holland asked Mr. Touney for the reinstatement of the discharged men but got no reply. The district committee of the Knights will meet this afternoon and further consider the matter. Mr. Powderly and Mr. Hayes, the secretary, are in Philadelphia, ready to be called if their presence is desired.  
The impression is growing among the employees of the road that the war upon the Knights is decided upon some time ago, and that Mr. Depey being opposed to it went to Europe so as to be absent when the discharges occurred.  
**FOR SEPTEMBER 1.**  
Labor Day in Chicago to be Celebrated as Never Before.  
CHICAGO, Aug. 8.—Labor day will witness a demonstration which, from present indications, will eclipse anything of the kind ever witnessed in Chicago. The first Monday in September this year falls on the first of the month and two big parades will tramp about the streets and afterwards picnic. It is expected that over 30,000 men will march in the procession. The Knights will hold their picnic at Willow Springs and the Labor assembly will give its exercises at Ogden Grove. Elaborate programs have been prepared for both places including speeches, music and sports.  
**RIFLE SHOOTING.**  
Camp Douglas, Wis., Monday's Military Camp Ground, Will Hear Shots.  
MILWAUKEE, Wis., Aug. 8.—One of the greatest rifle contests that the West has ever seen will begin at Camp Douglas on the 18th of this month, to be followed on the 24th of September by a no less important contest. The first is between teams representing the four districts of the department of the Missouri U. S. A. Forty men will compete, and out of this number will be selected the ten best shots to make up a department. These ten men will be the best shots out of 15,000 regular army soldiers. On Sept. 24, the regular army will compete with the militia organizations of the states of Illinois, Indiana, Iowa, Minnesota and Wisconsin.  
Luncheon for picnic and parties prepared on short notice will be served at Camp Douglas, except between the hours of 12 and 2 p. m.

**PERSONAL.**  
Mrs. A. W. Ringland is quite ill.  
H. H. Hoyt of Saginaw was in the city.  
Miss E. Harwood of Soudan is in the city today.  
J. Kaufmann of St. Paul is a guest at the Spaulding.  
Capt. John Fennelly and wife of Tower were in the city today.  
F. McMillan of Minneapolis is registered at the Spaulding.  
Mayor Davis left by lake route this afternoon for Okego, Iowa.  
Miss Belle Morlans has returned from a short visit to friends in Fargo.  
J. T. Schuler and N. O. Norton of St. Paul are registered at the St. Louis.  
W. H. Penobdy, wife and daughter of Dubuque are registered at the Spaulding.  
Mrs. S. Sellick has returned from the South and East after an absence of six months.  
J. B. McLaren, manager of the Underwriters' union, returned today from Chicago.  
Bookkeeper J. M. Christy of the state inspector's office, has returned from Pennsylvania.  
M. Mehan and D. M. Philbin of the South Shore road were in the city today on business.  
Richard Cullen—the chief knight of the ash barrel—leaves tomorrow for an extensive Eastern trip.  
Miss Nellie Barnard, of the Northern Pacific Junction, spent last evening with friends in Duluth.  
Jas. B. Dowling of St. Louis, a Duluth property holder, arrived in the city this morning and will remain for some time.  
Fred Coulson, connected with the firm of Chas. Bolvin & Co., music dealer of Detroit, is in Duluth and may locate.  
T. B. Barnes of the Farmers and Merchants bank, Duluth, is sojourning in the city.  
Miss Gibbons and Miss McNeil of Minneapolis and Miss May of Winona are visiting Mrs. B. Lytt on West Fourth street.  
Paul Martin, a prominent citizen of St. Paul, and a member of the board of fire commissioners of that city is in Duluth on business.  
Miss Kate Reed, who has been attending the summer school of languages in this city, returned last evening to her home in Waterloo, Iowa.  
Dr. R. M. Metcalf and C. A. Travis, of the Omaha railroad, leave this evening for a day or two's chicken shooting in the vicinity of Richmond, Wis.  
Mr. and Mrs. Geo. H. Prudden, A. M. Prudden and family, J. B. Scovell and family and Miss Ila Bennett are camping for a week at Onat-ka Beach.  
Joseph Helmke, who for some time past has been in the office of the Lake Superior Mining and Manufacturing Review, left this noon for Minneapolis.  
Capt. Frank Barrett has returned from a trip to Cincinnati and Virginia to make arrangements for shipping part of the machinery for the new furniture factory.  
The father and mother of County Treasurer Johnson, and his brothers, have arrived from their home in New Haven and are visiting them. It is Mr. Johnson's first visit to the West.  
J. B. Holmes of Minneapolis, one of the projectors of the Duluth, Northwest and Winnipeg roads, which The Duluth & St. Louis has already spoken, is at the St. Louis on business connected with the reorganization of the road.  
Now is the time to buy from our large list of acres in 49-15.  
YACOB BROS.  
Good canvassers wanted. Regular pay guaranteed. Apply at Herald office.  
We are binding "The Battle and Leaders of the Civil War" in morocco with marble edges at \$1.50 per vol. The HERALD BINDERY.

**THE EVENT CLOSING.**  
Odd Fellows Turn Their Faces Homeward Tonight.  
CHICAGO, Aug. 8.—The principal events of the Odd Fellows' encampment closed today. This morning the final contest for the Rebekah degree staff work was opened in Battery "D" by American Degree lodge 183 of Chicago, competitive work being done by degree staffs of Ruth Rebekah Degree lodge No. 1 of Omaha, Nebraska, and the Elita Rebekah Degree lodge No. 2 of Chicago. At 12 o'clock the canton battalion competitive drill was resumed on the lake front.  
Award of prizes for the entire competition of the week will be made tonight. Following the drills there will be a competitive contest this evening between non-commissioned officers and chevrons in the manual of the sword. Lieut. Gen. Underwood will be master of ceremonies at the full dress reception ball and promenade concert in Battery "D," which will bring the events of the day to a close.  
The President Thanks.  
New York, Aug. 8.—President Harrison has written to William H. B. Hall, the well-known journalist and author, expressing his thanks for the action of the latter in promoting the crusade against the caricatures of the President which were exhibited in the various stores, restaurants, and other places in New York city. Mr. Harrison's thanks are also included in the communication. As a result of the crusade all the caricatures and other offensive illustrations of the President have disappeared from the metropolis, and one or two stores which persisted in exhibiting them have been boycotted by their customers.

## CITY BRIEFS.

Who stole Newton's lens today. Says he can't make pictures without it.  
There were three births and two deaths recorded today. All were of infants.

Foundation work on the new whole-sale store on Sixth avenue west is going on very fast.  
The young people at Lakeside will be at once organized a Young People's Society of Christian Endeavor.

The services of a street sprinkler were duly needed this morning on Superior street during the high wind.  
Bricklayers in Duluth expect to go out on strike on the 13th unless their demands for nine hours are complied with by contractors.

Joseph Polak was arraigned in the lower court this afternoon, charged with injuring a cow. He was found not guilty and discharged.

Edward Gatzki and Michaela Saksowski renounced all allegiance to the Emperor of Germany and will become citizens of the United States.  
Only eleven pupils in the lower court this morning. One of them paid his fine and was released and the rest were sent to work on the streets of the city.

A meeting of those interested in the case of the title to certain Indian lands was held at 2 o'clock at the Chamber of Commerce.

The Herald's special illustrated edition is meeting with very large sale, and it is universally admitted to be the finest thing ever sent out of a newspaper office in this part of the country.

Auditor LaVigne is sending out notices today to the clerks of the towns in St. Louis county regarding the number of county and state auditors to be elected at the general election Tuesday, Nov. 4.

The Michigan street paving is progressing rapidly. The blocks are now down as far as Sixth avenue west and a large force of men is being used to collect pieces of water being done by Forestal Bros. on this street.

The two cars borrowed from the St. Paul City Railway company arrived in the city this afternoon and will be put into service at once in the West end; from Eighth to Twenty-fourth avenues, the change of the gauge having been completed.

The following variations in temperature were reported at the Pioneer Fuel company's office, Hotel St. Louis, 325 Superior street: 12 m., 33°; 3 p., 33°; 6 p., 37°; 9 p., 37°; 1 a.m., 37°; 9 a.m., 39°; 12 m., 40°; Maximum, 43°; Minimum, 37°. Daily range, 7°.

The course in music given during the past two weeks by Professor S. Myers will be closed by a concert at the Methodist church tomorrow evening. A full chorus of local singers will take part, and Mrs. Robbins, a noted vocalist of New York city, will also give a few selections.

The steam yacht *Rosens* was inspected today by Messrs. Monaghan and Chalk. A trial trip has been made with the little boat. The engine worked very smoothly and did not convey to the boat that unpleasant tremor so common to small steamers. She will make nine miles an hour.

An elderly crowd woman greeted Emma Goodrich and her company in "Dad's Day" at the Temple last evening. The performance was a pleasing one with just enough of a revolver so companion to catch the gallery. This evening "The Fisherman's Daughter" will be presented.

Noel Touchette of Ely, who attempted to jump a valuable iron claim on the southwest of 30, 63, 11, near Ely, has sent in a suit to the general land office in which he claims rights as an inventor, and wants the property. It is what is known as the "Hyde 40" and while not in any sense a mine is probably worthless, as undeveloped iron land.

The opening of the new opera house is expected to be a notable event. Manager Miller has secured the famous Hesse opera company for the season and a number of other attractions.

On Tuesday evening "The Fisherman's Daughter" will be presented. Tickets for the occasion are being largely sold in both Superior and Duluth.

A circular issued by President Norton of the St. Paul & Pacific Coast company, which has its docks here, announces that "L. E. Overman is hereby appointed general manager, secretary and treasurer of the St. Paul & Pacific Coast company, to take effect Aug. 1, 1890, succeeding A. Fuch, resigned. Mr. Fuch has gone to Banff, and his resignation is said to be due to errors that were exposed by the papers.

The celebrated Ivers & Pond Piano, used by the Duluth public schools, is sold by Duluth Music Co.

Good canvassers wanted. Regular pay guaranteed. Apply at Herald office.

**BORN.**  
McNabb—To Mr. and Mrs. McNabb, recently of Owen Sound, Ont., residing at 128 East Second street, a son.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 27, 1889.

**Wheat Market Today Experiences the Same Old Grind.**

Interesting Special Crop Reports From the Northwest.

The wheat market today, though fairly active, was quite irregular, following Chicago closely, and, as a whole, was an advancing one. The first trading, and in fact the principal business of the day, was in September, which opened 3/8 off from yesterday's close. This option, however, under small business, advanced steadily for some time, then fell off again to about the opening prices.

Trading in December wheat, which was the market for the most of the day, was quiet, but declined under a poor demand and closed just where it was yesterday.

## WORLD OF COMMERCE.

## Wheat Market Today Experiences the Same Old Grind.

## Interesting Special Crop Reports From the Northwest.

## The wheat market today, though fairly active, was quite irregular, following Chicago closely, and, as a whole, was an advancing one. The first trading, and in fact the principal business of the day, was in September, which opened 3/8 off from yesterday's close. This option, however, under small business, advanced steadily for some time, then fell off again to about the opening prices.

## Trading in December wheat, which was the market for the most of the day, was quiet, but declined under a poor demand and closed just where it was yesterday.

## LAST EDITION. THE RAILWAY STRIKE.

New York Central Officials  
Affect to Believe it is  
Over.

Conflicting Reports From the  
Two Sides; Along the  
Line.

New York, Aug. 11.—All through the night and early this morning, it looked as though the strike on the New York Central road was slowly but surely petering out. Nevertheless both parties to the blockade of passenger and freight traffic were, so far as words went, as stubborn as ever.

All through the night the Grand Central depot presented a scene of unusual quiet and gloom, but as daylight began to appear, the scene gradually changed. It became busy and noisy again, and there was some apprehension apparently as to how the day's work would be begun and the third day of the great strike entered upon.

The police arrangements remain the same as yesterday with the exception that the men were told to be ever watchful and not leave their posts for even an instant.

Precisely at 6 o'clock this morning Third Vice-President Webb entered the station at the depot. A reporter inquired of him whether the strike was over. He replied, "It is reported, Mr. Webb, that the firemen of the road have joined the strikers."

"That statement is untrue," the firemen have not struck and all trains so far are running all right, and even one of them left here fully manned. I have not heard from Mr. Depew yet and I do not expect to hear from him today. I have coped with the strike so far myself, and I think the worst of it is over, so I am not a likelihood that Mr. Depew will be called upon.

At the St. Johns Park freight depot at 10 o'clock this morning, the situation was practically unchanged from that existing there since the tie up started on Friday evening. Everywhere was posted no notice that no freight would be received there. All the platforms within the mammoth building were piled high with freight awaiting shipment, and the roof covered a mass of stalled freight cars. The officials of the company say that they have enough men to attend to the dispatching of all the freight they intend to send out from this city today.

All the freight to first class attention is that of a perishable character. No trouble is anticipated by the road's officials.

Third Vice-President Webb stated in relation to the statement to the effect that the firemen had been in Detroit that the order calling them out had been issued a few days ago by the Knights of Labor, but that both firemen and engineers had disavowed it. "I have every reason to believe," Mr. Webb added, "that neither the engineers or firemen will go out now."

No Assistance Asked Yet.  
SCRANTON, Pa., Aug. 11.—"I have received no word whatever from the east of the strike on the Lehigh Valley road," said Powderly last evening. "As I said before, it is purely in the hands of the local district union which is in charge of the matter. The general executive board must pass on the matter. The general executive board will meet on Wednesday, necessitating my leaving for that place tomorrow evening. I presume that the strike will end by Wednesday and perhaps we will be asked to take some action."

Want State Protection.  
ALBANY, N. Y., Aug. 11.—Adjutant General Porter has received word from Gen. Farnsworth, saying that everything is quiet at Oswego and the passenger trains are moving. Webb telegraphed asking for the protection of the state troops at Oswego.

Other Vanderbilt Roads Not in It.  
CHICAGO, Ill., Aug. 11.—The strike on the New York Central railroad has not extended to the Michigan Central and Lake Shore roads, as announced, would be the case in New York dispatches last night. The management of these roads say they do not anticipate any trouble, and they will do all the passengers can expect.

Delay and Uncertainty Characterize the Situation.  
BUFFALO, Aug. 11.—The situation on the Central here is unchanged. The strikers are few in number and keeping quiet. Trains from the East are coming in several hours late. The Chicago limited scheduled at 8:30 o'clock last night got here about 5 o'clock this morning and at 10:30 o'clock was still standing in the depot. If the train gets out of Buffalo sixteen hours behind time it will be doing all the passengers can expect.

About the Central depot there is nothing unusual today except the difficulty found in handling the new men so that the trains can be sent out promptly. This, of course, is almost an impossibility, and the result is considerable confusion.

The Question of Pinkertons.  
ALBANY, N. Y., Aug. 11.—A committee from the Knights of Labor waited upon Deputy Attorney General Whitaker today and inquired as to the right of the Central road to employ Pinkerton detectives and others to guard its property. Mr. Whitaker told the committee that the railroad company had a perfect right to protect its property.

A Prominent Knight said at noon that as the trainmen were from the West, the firemen were dropping from the service here, and had joined their striking brothers. He said that the Brotherhood engineers refused to work with any but union firemen, and would not go on New York with green firemen. Superintendent Bissell denied the rumor.

A Fearfully Close Call.  
WATERBURY, N. Y., Aug. 11.—The westbound flyer on the Rome Road at Adams Center by reason of a switch being left open. Four freight cars, the engine, the baggage car and the first coach were damaged. Not a passenger was injured. The fireman sustained severe bruises.

## THEY'LL NOT LIKE IT. For no Woman Will Correspond on a Postal Card.

BIRMINGHAM, Conn., Aug. 11.—The postoffice department has issued orders for samples of pearl gray postal cards to be used by the manufacturers of cards to be used by women and to be used by the manufacturers of cards to be used by women.

The Wilkinson mill is now running two machines on the cardboard for the regular cards. The card factory prints 2,000,000 cards daily, and from 1,000,000 to 2,000,000 of these are packed ready for shipment each day.

**BIG THREAD COMPANY**  
Will be the J. & P. Co. When It is Organized.

New York, Aug. 11.—Subscriptions to the stock of the reorganized J. & P. Co. have been opened simultaneously in various places in England, Scotland, Canada and the United States.

Aug. 12 in New York the bank of the Manhattan company has been authorized to receive subscriptions for shares of \$25,000,000. Of the strictly share capital, there are two classes at \$10 each, of which 2,000,000 shares are preferred by mortgage at 4 1/2 per cent, makes the total capitalization \$35,000,000, or \$27,500,000.

The company has been formed to work the well-known Coats thread works at Paisley, Scotland, and at Fawcett, Mass. The business was founded in 1830, and the American branch in 1842. Six years ago it was converted into a private company, which it is now proposed to change into a corporation under the laws of the state of New York.

Butterworth's Mission.  
Will Modify Legislation to Favor of the World's Fair.

CHICAGO, Aug. 11.—Hon. Ben Butterworth, secretary of the World's fair, today announced that he had introduced a bill into the Illinois legislature to modify the laws of the state to favor the World's fair.

Among the interesting events of the day is the opening of an exhibition of the products of the World's fair, which has been beautifully decorated with fruits and vegetables, and is a most interesting sight.

The evening the Mayor's club of Massachusetts tenders a banquet at the Willard hotel to the members of the United States, President Harrison and Vice President Morton and the members of the club.

The banquet is a most interesting one, and the members of the club are most interested in the products of the World's fair, which has been beautifully decorated with fruits and vegetables, and is a most interesting sight.

The entire day will be devoted to the reception of delegates. Tomorrow the Grand Army parade occurs and on Wednesday the encampment formally opens.

The proposal to change the style of the Grand Army button is being freely discussed by the veterans, and the present insignia is being counterfeited or imitated by very many secret or other sources. Contrary to the expectation of previous encampments there is no boom for any one in particular for the office of commander-in-chief of the Grand Army.

## DOING HERSELF PROUD.

Many Grand Army Men Making the Hub One Gigantic Camp.

The Day's Program; These Men Will Enjoy Themselves.

Boston, Aug. 11.—Grand Army week opened with clear, cool weather. Although the city is already enveloped in gay colors, the weather is still going on and the proverbial oldest inhabitant is at his wit's end to recall any previous occasion when the Hub has tried so hard to "do herself proud."

The Wisconsin delegation came in in twenty coaches of three sections and received a hearty welcome.

Another great excursion train was that from Sioux City, Iowa, one of which represented a corps, the next three the Grand Army, in national colors and the fourth Hancock post of Sioux City. One of the first delegations to arrive today was R. B. Wolcott, No. 1 of Milwaukee, 150 strong.

They were escorted to Medford, where they will be the guests of S. C. Lawrence, Phil Sheridan post of Oak Park, Ill., arrived at 2 a. m. and were taken to Wakefield as guests of Lieut. H. M. Warren post.

At the New England depot several long delayed trains arrived during the night, the train bearing the Wisconsin delegations, 1000 persons, arrived in three sections, the first from Idaho, the second from Nebraska, the third from Tennessee.

Five thousand veterans will sleep under the roof of Mechanics building tonight. They are made up of representatives from the following states: North Dakota, Idaho, Nebraska, Kansas, Nebraska, Tennessee, Iowa, 500, Delaware, Kentucky, 250, Pennsylvania, 200, New Jersey, 200, New York, 200, Connecticut, 200, Vermont, 200, New Hampshire, 200, Maine, 200.

The delegates are all in the line of the day. President Harrison, who spent the night in the Sound on the steamer Baltimore, will reach the city about 3 o'clock this afternoon and will be received by the municipal committee of the Grand Army.

Among the interesting events of the day is the opening of an exhibition of the products of the World's fair, which has been beautifully decorated with fruits and vegetables, and is a most interesting sight.

## WISCONSIN POLITICS.

The Hum began in Politics Just Across the State Line.

MADISON, Wis., Aug. 11.—[Special to The Herald.]—Wisconsin politics has commenced to hum. The chief interest centers in the republican ticket, though the democrats are very hopeful this year. They are not saying much, but are permitting things to run along quietly. Hoard will be nominated for governor without a shadow of doubt, and it is almost equally certain that he will make the run, although the platform prepared for him may not come up to his full expectation.

For lieutenant-governor the candidates are E. S. Miner of the Ninth congressional district; A. P. Lovejoy of First; J. B. Treat of the Third and E. E. Mills of the Eighth. Mills is not so promising a candidate as he was a week ago, for the reason that his old antagonist, Hugh H. Price, has thus far succeeded in preventing him from obtaining the delegation from his own county—Jackson. G. W. Ryland, the present incumbent, is a good dark horse.

SCANDAL TO CHRISTIANITY.  
Protestants Criticize the Catholics for Invading Their Mission Fields.

LONDON, Aug. 11.—The Church Missionary Intelligencer, the organ of the Church of England missions, says the aggressions of the Roman Catholics upon Protestant missions, wherever they are founded, are a scandal to Christianity. Its criticisms are based upon the fact that the Catholics have invaded the Congo region, where many Protestant teachers are at work. The Intelligencer says it is desirable to have an arrangement to the missions managers here criticize Baron von Wissman for his statement in his opinion, Roman Catholics are far more successful than Protestants in the Congo region.

He regards the Catholic methods of teaching as better adapted to improve the ruler, says that the Catholic is more perfect, and that they rarely leave their stations, but live and die in the land.

EXPEDIENT MILITARY PROBLEMS.  
LONDON, Aug. 11.—Further and more serious trouble has occurred among the troops at Chatham. A few days ago the barracks of the 1st Battalion of the 1st Artillery were there were so badly out and damaged by some of the men belonging to the 1st Battalion of the 1st Artillery that it was necessary to abandon a proposed parade. Today it was discovered that the barracks were again being used and out in such manner as to render them entirely useless. Three of the artillery who were leaders in the mutiny movement have deserted.

TO EXPEDITE MATTERS.  
CHICAGO, Aug. 11.—It is probable that the World's fair commission will be again called together in about three weeks instead of Oct. 8, the date set at the adjournment. It is the opinion of President Palmer and Secretary Butterworth that as the bill has safely passed through the legislature and executive, the plan and work should be expedited, the ground mapped out and the architecture of the buildings set at work without unnecessary delay. Within six weeks the ground will have been broken and the preparations for the two sites will be going forward with energy.

A LARGE LAND SALE.  
SAN FRANCISCO, Aug. 11.—The sale of San Jacinto land property in San Bernardino county was completed yesterday by the first payment of \$300,000 cash through the bank of California, and the deed was delivered to the purchaser, the San Jacinto Estate company of England. The property consists of nearly 50,000 acres of land in San Bernardino county.

SARATOGA RACES.  
SARATOGA, Aug. 11.—First race—Five furlongs, Kumbow, with Carnot second, and Golden Rod, third. Time, 1:56.

Second race—Mile and a furlong, King Crab won, with Hypocrite second, and Lady Piusler third. Time, 1:56.

The last Irish over Cardinal Manning.  
LONDON, Aug. 11.—Cardinal Manning is dangerously ill from pneumonia at Birmingham. The last rites of the church have been administered to him, and he is now being prayed for in the churches.

Largest Circulation in Duluth.  
Persons desiring THE HERALD at their homes can secure it by postal card request, or order through Telephone No. 36. The paper is free of charge, and where the liberal correspondence will welcome visitors from the Northwest.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

The Washington office of The Herald is at 21 New York avenue, N. W., where the paper is kept on file, and where the liberal correspondence will welcome visitors from the Northwest.

As compared with other large financial centers of the Union—Duluth for Duluth is in the list—this city showed the largest gain for last week in bank clearings, Tacoma following 4-10 behind with 100.1 per cent. This city is twenty-fifth on the list, a little lower than usual, and it is close to Richmond, Dallas and Columbus.

The states of Minnesota and Wisconsin appear to be taking the lead in the formation of school libraries, during the past year these states have established over 1200 libraries. State Superintendents D. L. Kiehl and J. B. Thayer of the two states respectively, and their assistants, have shown untiring energy in examining, selecting and cataloging suitable books. It is planned to note that of all counties in Minnesota our own St. Louis, under the efficient care of County Superintendent Stulz and City Superintendent Denfeld, is in the lead with the valuable nucleus of many school libraries.

A retrospect gives strength to the bull side of wheat. In the years 1878-9 when just such a condition of affairs as regards bad weather existed in Europe as is now reported, the United States imported upwards of \$200 million of gold, which was in payment for wheat and other cereals abroad. In 1879, France produced but 217 million bushels of wheat, while the average crop in 1880 was 285 million. It will thus be seen that the shortage for the year in question was but 68 million. If the damage in the present year be anything like that estimated, France will be compelled to import more grain than eleven years ago. A short crop in France is of particular importance, because that country is one of the largest continental producers, and its crop is equal to those of the United Kingdom, Germany, Turkey, Roumania, Belgium and Holland combined.

On Saturday occurred an event of the utmost importance to the cities at the head of Lake Superior in the turning of the first spade of earth on the Great Northern railway's Pacific extension. It took place at Fort Abernethy, itself far to the westward, in Montana, and President Hill desired it of so much importance to the scene in person. Not only does this move give to Duluth and Superior another transcontinental line, but the event is fraught with interest from the fact that this will probably be the last transcontinental line built in this country, as the ground has been so well covered that no prospective largely remunerative territory remains. Scarcely a week has elapsed since the contract for the extension to the mountain was let to Shepard, Stone & Co., but quick work was done in the way of making preparations. The construction will proceed as rapidly as possible until the mountains are reached, when the route through the Cascades will be decided upon. The entire line from Duluth to the coast will be in operation by 1902 and Duluth will have direct connections from this city in a year from this day of grace 1890.

The sudden death of John Boyle O'Reilly, in the flower of his life and vigor, as those nearest him thought, will be mourned wherever the man and his work are known. And no man in this country had more or warmer friends in all parts of the world, for the strange fortune of his life had led him to the farthest parts of the earth, and he won friends wherever he went. His person and mind were charming, an athlete accomplished in every exercise, filled with the Greek spirit that sought perfection of body as of mind, a true comrade in all manly pursuits, a leader in every humane cause. Whatever he did, he did with his whole heart, and what he has written has the press of a true man's heart in every line. His genius was unique like his personality. In whom else was united as in him such extraordinary vigor, such buoyancy of spirit, with such intense self-absorption at times, such heart-searching, such bursts of fancy and feeling, such far-reaching sympathy. His persuasion of the brotherhood of men of every race, class and condition, was a part of his nature. What to men commonly is little more than a phrase of words was to him a passion of realization. No man was so unformed, or colored, or savage or debased as to be outside the heart of John Boyle O'Reilly. The laughing of a black skin cut him to the quick as surely as the laughing of a white, and the groan of a naked wretch in the Australian bush was as pitiful to him as the groan of his next-door neighbor. He came an Irish fugitive from English injustice to New England. By pure desert he won his place as poet, editor, orator in the honor of his adopted country and the Old World as well. And there are few men living who have so well deserved the love of their fellow-men or will have so many hearts with them on their death-bed.

The news that the Chinese government is contemplating immediate retaliatory action on account of the Chinese exclusion law has been directly intensified by the Chinese minister at Washington and may make it necessary for us to care very soon for our own American colony in China. According to the report of the American minister a year ago there were 102 Americans in China, of whom 122 were women, 62 children and 848 men. This estimate is in all probability under the actual figures, as China is a large country. More than half of the Americans in China known to the resident American officials are missionaries. These number 500 in all and next to them in number come the seamen, for the American tar took an early and conspicuous part in teaching the Celestials the mysteries of modern navigation, and is respected and appreciated accordingly. It evidently will not trouble the Celestial dignitaries very much to banish this handful of Americans, but there was a time when such a proposition would have met a great disturbance in the empire. It was early in the '70's when an American commanded the Chinese army and another the Chinese navy, and American merchants and American ship captains were the most conspicuous and the most influential foreigners in Chinese ports. In Shanghai alone in 1862 there were more than 1000 Americans. If China should permit her residents to be banished, it would be to the extreme of commercial non-intercourse it cannot be considered at, though in dollars and cents, she will have more to lose than to gain by the operation, since the balance of trade with us is heavily in her favor. In 1887 our exports to the Chinese Empire were about \$10,000,000, while our imports were fully twice as much. We hope, however, that China will show herself less arbitrary and needlessly offensive than our own country.

Seen and Heard.  
Since Postmaster General Wainwright gave out his mandate against Tolstoy's "Kreutzer Sonata" the sale of the book has been tremendous. "In this city," says a letter to me from a New York friend, "a cheap edition is being hawked around the street in push carts, and the sellers attract the attention of the passers by a big cardboard sign on which the word 'Suppressed' appears in prominent letters, followed by the announcement that Wainwright has decreed that the book shall not go through the mails. One book store keeps a man standing in the doorway who points to a lot of newspaper clippings pasted upon a board which tell what the postmaster-general has done."

Edward Fuller has just returned from a visit in the East. He says he was anxious when he reached Boston to see what some of his old classmates in the law school were doing, their first year of practice. One of them he found had made \$100 in the first year, another had made \$200, and a third, who was one of the brightest men in the class had been very successful and had made nearly \$1000. There are few (any) lawyers in Duluth who can manage to make more than the latter amount in a year, and Mr. Fuller is more than ever convinced that the West is the place for a young man, in law as well as in any other business.

Manager Drummond, of The Spalding, is an observant man and in speaking yesterday of some of the needs of Duluth he said that one thing that is needed as much as anything else is a line of small steam launches for the use of visitors. There are a number of people who were up from St. Paul and Minneapolis with their families to spend Sunday near the lake, but not enough amusement is furnished them. Mr. Drummond says that at least fifty people came to his yesterday with the inquiry "what can we do for amusement?" And the only thing he could offer them was the excursion to Spirit Lake, and this would hardly suit every body.

The hundred excursionists aboard the Hunter bound for Two Harbors yesterday enjoyed the novelty of what proved to be an exciting race between this speedy craft and the Dixon, Capt. Hector, who had been looking for an opportunity to test its racing qualities with that of its rival. Shortly after clearing the harbor the Dixon was about a mile astern. Approaching Knife Island the Dixon came abreast and the race began over a sea whose surface was as smooth as a billiard table. The heart of a Mississippi river captain, the energies of the Hunter worked with clock-like regularity as Engineer Wagner opened the throttle. The passengers crowded the rail to view the Dixon, which was running a neck-and-neck race with the Hunter. It was an exciting contest from the outset and Capt. Green will hereafter carry a galli-cocked broom. The trip to Two Harbors along the beautiful shore line with its ever-changing scenes affords citizens of Duluth and the stranger within her gates a delightful day's outing.

IN LOBBY AND CORRIDOR.  
Dr. W. H. Cray of St. Paul was at the Spalding last evening. The doctor is a great fisherman and it was his intention to go to Fort Arthur on a fishing trip, when he left home, but there was no boat in the harbor and so he stayed. He was in the city for a few days, but there was no boat in the harbor and so he stayed. He was in the city for a few days, but there was no boat in the harbor and so he stayed.

Anthony Yeager, Jr., and H. C. Penn accompanied Dr. Cray. Mr. Yeager is an ex-member of the St. Paul council, and was formerly quite a power in local politics, but he says that he has learned enough and is now letting politics alone and attending to his business.

A. E. Chandler and bride of St. Paul were in the city yesterday. Mr. Chandler is the city editor of The Dispatch and the St. Paul agent of the United Press. He also wears the title of inspector of small arms practice in the First regiment. He was at Lake City with the regiment during the recent disaster, and feels proud of the fact that he was the only one out of the city and held it for the use of his association.

Among the visitors at The Spalding yesterday was C. B. Stone, St. Paul city ticket agent of the Northern Pacific. "Call" says he knows by the railroad and newspaper men, is fond of a good story, and he can tell a few himself.

## LITTLE CHUNKS OF NEWS.

W. C. Sargent. The contractors are getting along very nicely with the water works and sewers at Lakeview. They have had considerable hard luck and we extended their time until Oct. 20. I guess they will complete the work by that time.

S. A. Thompson: If you want to see a beautiful place for a row of houses just look at those Architect Traphagen has drawn for Mr. Munger. They knock out anything in this part of the country.

E. Z. Fisher: Coal receipts are a little light; the fact is, docks are pretty well filled and forwarding is very slow, unusually late in starting. They're waiting out West for the crop to move. The two sides the bay will likely get about equal amount of coal this year.

A vessel man: I was much interested in The Herald's special from the Saul Saturday detailing the result of the break there. It was concise and to the point, and was far better than columns spun off about the history of the canal and all that sort of rot would have been.

## PUBLIC OPINION.

Northfield News: Taking it all in all the opinion in regard to the ticket was most favorable. There is not the slightest doubt but what the ticket will be elected. This is a year when the patriotism and fidelity of all true republicans will be shown.

Slayton Gazette: It is a platform and a ticket around which every good citizen can rally, a ticket which will be elected in November by a rousing majority.

Fairmount Sentinel: There is no more doubt of Governor Merriam's election than there was of his nomination, and the state is to be congratulated that it is to have the benefit of his economic business principles for another two years.

Owajons Journal: Hon. William R. Merriam has, with unquestioned fidelity to his trust, discharged every duty devolving upon him as executive of the state for the past two years, and that too without ostentation or pretense, and deserves an endorsement.

Battle Lake Review: If the alliance leaders are honest why don't they come out like men and say that it was a move to down the republican ticket. No wonder that the republicans are withdrawing from the alliance. They are not yet ready to turn the state of Minnesota over to the democrats.

## KING OF COCOAS—"ROYAL COCOA FACTORY."

Kings are but men, but all men are not kings. Therefore, when the King of Holland says, as he did by deed of August 12, 1839, that he is greatly pleased with

**VAN HOUTEN'S COCOA,**  
"BEST & GOES FARTHEST,"  
and, entirely unsolicited, grants the manufacturers the sole right of styling their works the Royal Cocoa Factory, a significance attaches to the act which would not were he not "every inch a king."

## ODDS AND ENDS.

Five generations of one family sat for their photographs in a single group at Springfield, Pa., a few days ago.

Tulane county, Cal., will lose a half million dollars this year for want of ships to carry its grain to Liverpool.

Fifteen millions of dollars is mentioned as the value of the treasures accumulated in Hillford House by Sir Richard Wallace, and it is rumored that he is worth \$200 a pound.

The most valuable metal in the world is said to be gallium, which is worth \$3250 an ounce. Calcium brings \$1900 an ounce, and cerium \$1920 per pound.

In the forests of Washington and British Columbia are frequently seen trees dripping copiously during clear, bright days, when no dew was visible elsewhere. This peculiarity is due to the condensing power of the leaves of the fir, and it occurs only when the humidity is near the dew point.

The lightning of the railway system of this country are \$100,000,000 last year. They carry annually one-half a million of passengers with a very small percentage of accidents. They have increased their facilities at a ratio one-third greater than the increase of population. More than one-tenth of the entire population of the country live directly or indirectly by railroads.

Headache, Neuralgia, Dizziness, Nervousness, Stomach Weakness, cured by Dr. Miles' Nervine. Samples free at Mac Wirt's.

A Sanative Precaution.  
Though disease cannot always be conquered, its first approach can be checked but not only the use of a medicinal agent to be recommended to the first appearance of a malady, but a wise discrimination should be exercised in the choice of a remedy. For thirty years or more Horelli's Stomach Bitters has been the reigning specific for dyspepsia, fever and ague, loss of physical strength, liver complaint and other disorders, and has been most emphatically endorsed by medical men as a health and strength restorative. It is indeed a wise precaution to use this sovereign fortifying agent and alternative in the early stages of disease, for it effectually counteracts it, if the malady belongs to that large class to which this healing medicine is adapted. Not only is it efficacious, but pure and harmless.

## MILLS CLOSING DOWN.

Most of the Duluth Saw Mills Will be Closed Within a Month.

## Notes of Local Millmen Doings; The Scott-Holston Mill.

Indications are that of the six large sawmills on Rice and Conners puffs only two will be in operation a month from this date, unless there are heavy continued rains. All of the mill companies have logs enough to keep them busy until the end of the season, but they are hung up in the woods. Early rains and snow water had little effect on driving and later rains, though heavy, were of such short duration that, in most cases, the rivers did not get much good from the first of next winter, who are anxiously looking for water, most of them with logs hung on south shore streams.

Duncan, Brewer & Co. are building a large dam on the upper Nemadji, but it is not finished, while their logs are nearly out. They have something like 65,000 feet of logs on the river, but they are not getting much good from the first of next winter. The firm has already bought a large supply of dimension stuff of other Duluth mills and expects to get hold of a good deal more.

The mills of C. S. Murray & Co., the West Superior company, and Peck & Son will all have close down before the former two before the end of this month. Of the Superior company, part of its own logs and part of the Holtenbach timber, which is being sawed, hanging up on the south shore and is probably good for another winter in the woods. The Peck mill is well sold up, but has nearly run through its timber and will have to follow the others.

As the Hubbard & Vincent mill closed some time ago, the only mill that can keep at work to the end of the season is that of the Scott-Holston company, and it is all right for steady work.

The Scott-Holston company, which is nearly completed, and will be at work in a few weeks with a stock of logs for the fall. Millmen are reporting a good trade, with prices continuing to harden and stiffen, and with a considerably better inquiry than for a long time. There are not as many heavy local jobs either on docks, buildings requiring large bills of pine stuff, or stevedores as for a few years back, and the home consumption at the head of the lake is not so active this season from the smaller orders and from dwellings. It is doubtful if the total lumber consumed in Duluth this season is quite up to last year, for it takes a great many houses to use as much lumber as was consumed for the fall.

The A. M. Miller mill at Thomson has saved only about 60,000 feet this year, that being the timber Mr. Miller cut out for it last winter. His timber is exhausted and the mill will close permanently about Sept. 1. It is not, however, that the total saving capacity of the Duluth district will not be reduced by the closing of the mill, as it is understood that a company has been formed by Mr. Miller and his associates, whereby the mill is a new venture, will keep up its record after next May.

Nearly 400 men in employment. About 60,000 feet of lumber are being moved every day at the Scott-Holston mill. The Bureau of Census, which is expected to be about the 10th of November. The office in the warehouse will soon be filled up. About 200 men are now employed at the mill. Within the next four weeks in the yards, so says Foreman Littleworth.

Notes of the Saw. Large contracts for railroad timber have been made by the Duluth mills in recent months, and some have already begun shipping.

Already jobbers have sent explorers into the woods to look over the land for the winter.

It is rumored that besides the Mitchell-McClure, Lyman and Huntress & Brown saw mills on this side, the new mill is to go to a new location.

The propeller Schooner and tug Colton last week towed from Ontonagon to the Newberry mill, the lumber raft of logs ever hauled on Lake Superior. It contained over 600,000 feet. At one time it was stuck in the rapids, but all of the logs were got ashore. For two hours the steamer could not gain an inch, so heavy was the log jam.

Owing to the close season the plankers at the Imperial mill elevator have been unable to work for the past three or four days, the mill being having contracted to furnish the stuff.

Quicker Time to the East. The Duluth, South Shore & Atlantic road has induced the Michigan Central to put on a faster train service between St. Ignace and Detroit beginning Aug. 17, the train which leaves St. Ignace in the evening will reduce its time to as to arrive in Detroit two hours earlier, and will thus be able to make through connection for the East, saving seven hours to Boston and four hours to New York.

A Booming Railway. Yesterday was a field day for the Minnesota Point Street Railway lines. Down the Point several hundred visitors spent the day there picnicking under the trees and enjoying themselves. The measure transportation facilities were inadequate. It is the intention of the company to place additional cars in the run, that its patrons may travel with more comfort in future.

At Sacred Heart. Father Corbett, at 11 o'clock in the pro-cathedral, preached upon the scenes of the last judgment day, depicting in touching terms the eternal perishing those Catholics who take from the Savior, Judge who in this life persist, in spite of the church's plagues and threatenings, to follow sin and sinful associates.

Bach's Orchestral Concerts. George Bach, brother of Chr. Bach, the leader of Bach's famous orchestra of Milwaukee, is in Duluth today, arranging to give a series of concerts here by that organization.

New Duluth. 50 acres choice river frontage, \$9000. McFARLANE & ASSY. 504 Palladium building.

Wanted, one hundred carpenters and laborers. Imperial mill elevator.

Now is the time to buy from our large list of acres in 49-15. FRANK BROS.

## WEST DULUTH.

Men are at work repairing the pavement on Grand avenue, which was injured by the rains of last week.

The father of Worrell Clarkson leaves tomorrow for his home at Wilmington, Del. His mother and sister will remain for several weeks.

William Mars has returned from a short visit to Marquette, Wis. The athletic club will meet this evening to elect officers. All members are requested to be present.

The Scandinavian union will meet this evening to talk over matters concerning the celebration on the 15th of September.

Worrell Clarkson will soon begin the erection of a real estate office on the corner of Central and Grand avenue.

In the case of the village vs. Doyle, the defendant pleaded guilty to the charge of disorderly conduct and was fined \$7 and costs.

C. S. Bennett of Frankfort, S. D., has purchased the real estate business and office furniture of C. P. Dackford in the Phillips hotel.

John Carr has the contract for the building of the bridge from the sidewalk to the furniture factory.

Representatives from different manufacturers of uniforms are here to compete for the supplying of the uniform rank, Knights of Pythias, with uniforms.

WEST END. Car. Cooley who has been in the employ of James Warnock for some time, left last night for Fort Assiniboine to aid John and John's family in a contract on the Great Northern extension.

R. H. Robinson has gone to Fort Assiniboine to complete some contracts there. His family went with him as his contracts will require two years' time.

Notes. A good restaurant is what the West End needs and not a half-dozen small ones such as we have now.

The Sunday school of the Second Presbyterian church will hold its excursion tomorrow.

Miss Minnie McKay and brother Will were visitors at Foxboro, Wis., yesterday.

Good many Rice Pointers think that the Rice Point club could do a great deal better with the Superiors than the Duluths did yesterday.

Personals. Rev. J. Johnson of the Swedish mission church left this afternoon for Minneapolis.

Becker Sandberg is on the sick list—neuritis.

Engineer W. S. Harvey, who pulled out the special train of President Coolidge, received a line compliment from the president for the time manner in which he pulled the train when Colly was here last.

At Imperial Mill and Cooper Shop. A half dozen millwrights are at work at the special train of President Coolidge for the new machine, which will increase the present capacity of the mill to 100,000 feet per day.

The new machine, which will increase the present capacity of the mill to 100,000 feet per day, will be set up as soon as the ceiling is finished.

Streets in Duluth. Dr. Staples of the State Board Describes Work Here.

Dr. Franklin Staples of Winona, president of the state board of health, who has been in Duluth some days, writes to the Winona Republican a letter on the public works of this city. In the course of his letter, in which he describes the manner of paving and sewer work here, already familiar to readers of this paper, he says:

"Duluth has a population of 33,000 exclusive of the suburbs of West Duluth and Lakeside, which together have a population of about 10,000. The city is situated on the lake side of a rocky promontory which is about 500 feet high and which forms the north shore of the head of Lake Superior, and extends around the western point some distance up the St. Louis bay. Across the bay on the Wisconsin side is the city of Superior with a population of 12,000. It is, therefore, at the head of the lake a total population of about 50,000."

The work of building streets in the city of Duluth, owing to its peculiar features, is a task of no small magnitude. Notwithstanding all this, the business portion of the city already has the appearance of a metropolis, and the residential portion, with its fine buildings, terraced lawns and its long, well-finished streets and commanding view of lake and city, is becoming second to none in beauty of situation. There are now fifty-five miles of streets graded within the city limits and forty-nine miles of sidewalks, and at the beginning of the present year, about three miles of pavement had been put down.

When the cedar blocks were put down for the first time, the road was in the condition of a dirt track, and the additional expense in leveling and grading was considerable. The concrete and cedar, or that with gravel, boards and cedar, can be put down for \$1.00 per square yard.

Dr. Staples then speaks of the method of letting public works and the manner of supervising and says that in another letter he will describe the sewerage system, which he believes will be of advantage to Winona in carrying out her own work.

The superior merits, as a blood-purifier and invigorating tonic, possessed by Dr. Pierce's Golden Medical Discovery, warrant its manufacturers in selling it, as they are doing through drug stores, under a positive guarantee that, if given a fair trial, it will cure all diseases arising from impure blood, such as indigestion, or dyspepsia, and all humors, or blood taint, from whatever cause they may arise.

At Sacred Heart. Father Corbett, at 11 o'clock in the pro-cathedral, preached upon the scenes of the last judgment day, depicting in touching terms the eternal perishing those Catholics who take from the Savior, Judge who in this life persist, in spite of the church's plagues and threatenings, to follow sin and sinful associates.

Bach's Orchestral Concerts. George Bach, brother of Chr. Bach, the leader of Bach's famous orchestra of Milwaukee, is in Duluth today, arranging to give a series of concerts here by that organization.

New Duluth. 50 acres choice river frontage, \$9000. McFARLANE & ASSY. 504 Palladium building.

Wanted, one hundred carpenters and laborers. Imperial mill elevator.

Now is the time to buy from our large list of acres in 49-15. FRANK BROS.

## A GOOD LOCAL MUSEUM.

The Chamber of Commerce is Working For; Tonight's Council.

## The Knott Party; Situation in Ore and Shipments to Date.

The West Duluth Manufacturing company is now at work on the book and specimen cases to be placed in the directors' room at the Chamber of Commerce.

The Knott party will occupy the greater part of the space on two sides of the room and will have glass doors. The contents will form a nucleus of the exhibit of products of St. Louis county which the directors will complete as rapidly as possible.

The exhibit which occupied the St. Louis county building at the state fair will be placed in the specimen cases, and all visitors will be able to examine the county will be given a place. There are a number of the members of the board who are interested in mining property, and it is expected that they will secure new specimens on their visits to the mine.

In this way the Chamber expects to secure a fair-sized museum in a short time.

THE KNOTT PARTY. S. T. Johnson received a telegram from Louisville stating that the tickets had been received for the Knott party which will leave for Duluth this evening. The program for the reception and entertainment of the party will not be completed until tomorrow. There will be fifteen people in the party and the tickets cost \$23.50, all of which was raised by Mr. Johnson.

At Tonight's Council. The major's wife, the ladies' association, authorizing the Duluth Gas & Water company to connect their mains with those of the city.

## BASEBALL TOURNAMENT.

A Chance for Duluth Clubs; Some Notes of Sport in General.

In order to start a movement for the advancement of the amateur baseball interests of Minnesota, the Lake Crystal Baseball association of Lake Crystal, Blue Earth county, has arranged to hold a tournament, Sept. 1. The proposition met with the warm endorsement of surrounding clubs. The arrangements, so far as ready, are as follows:

The purpose will be \$250, divided in \$250, \$100 and \$50, besides which will be \$20 in small prizes, awarded for superior individual work. The entrance fee for each club will be \$20. Entries will close Aug. 23, provided no less than eight teams shall have entered. Each competing club will be given 10 per cent of the gate receipts for every game it plays in. The winning club will also be presented with a silver cup for the amateur championship of Minnesota. The tournament will be opened on Sept. 1. During the week a convention will be held to discuss the desirability of a state amateur tournament. For further particulars, address J. E. Hall, Sec. L. C. B. A., Lake Crystal, Minn.

Paying For the Fun. The exhibit which occupied the St. Louis county building at the state fair will be placed in the specimen cases, and all visitors will be able to examine the county will be given a place. There are a number of the members of the board who are interested in mining property, and it is expected that they will secure new specimens on their visits to the mine.

In this way the Chamber expects to secure a fair-sized museum in a short time.
